# EY

Holy Smokes, what a year of opportunity! Lots of moisture should make for a lot of grass. Economists say that we are poised for good times ahead for cattle prices! As you can tell, I feel times are bright for the cattle business.

The bulls this year in our offering represent the top end of our 2019 calf crop. Like most operations, the cattle have had to overcome adversities which are reflected in the 205-day weights. Our region had an adequate amount of forage, but it lacked in energy. Despite this, the bulls have really responded well to feed and stayed healthy. The only creep our bulls see is a medicated pellet in the spring for about 45 days to help prevent coccidiosis.

We feed at our ranch using a TMR wagon which allows us to manage a higher roughage ration. Our nutritionist, Marie Woodbury of CHS, assists us in balancing a ration consisting of alfalfa, slough hay, upland hay, hay barley, corn silage, modified DGR, corn and a mineral supplement. We aim to test the bulls for performance on feed while not jeopardizing their longevity along the way. We like to keep the bulls in a big enough pen for adequate exercise to promote muscle development and keep feet in good shape. We feed for a 3-pound-per-day gain and like to keep average back fats come ultrasound day around that 0.25 average.

Our focus for genetics involves breeding to make these animals functional and efficient. We utilize AI to use the best proven sires we feel represent the Red Angus breed. We strive to produce for our customers bulls that will promote growth, good structure and a strong foot set. Mothering abilities and docility are also at the top of the list along with positive carcass. All in all, we are working at offering balanced traits that work for not only ourselves but our customers as well.

We look forward to working with new customers and thanks to our past customers that remain committed to the cattle we stand behind. Visitors welcome anytime.

God Bless,  
The Hubers

# KR

Hello and welcome to our annual production sale. We first want to thank our past buyers for their confidence and support of our program. We are grateful for the support and friends we have made being in this business. The bulls have been fed a complete mixed ration consisting of chopped hay, silage, corn, distillers and a complete mineral program. The average daily gain test started the day of weaning on November 2 and continued for 107 days. We take pride in representing our cattle honestly. Absolutely no "fluffed" numbers or information. The bulls were weaned later this year due to a blizzard and extremely wet conditions. This in turn has affected our adjusted weights but we believe you will find the same quality you have seen at our sale in the past. All the bulls are semen and soundness evaluated and are ready to go to work for you.

We are excited for you to see the bulls as this is a solid set from end to end that we offer for you to appraise. They are bred to grow and fed to last in anyone's program. This year we again are offering a few more black bulls. By utilizing embryo transfer and artificial insemination we are hoping to bring some high-quality black genetics for our customers that utilize both black and red genetics. As we work to build our black genetic program, our friend Kipp Julson with Double J Simmentals has helped with some embryos from his program to offer to our customers as we work to bring high-quality black genetics as well. We thank him for his help.

We would like to invite you to take the evening off and join us on April 24, 2020, at 5 p.m. at Napoleon Livestock. If you are unable to attend the sale we encourage you to view the bulls at the ranch any time before the sale, or give us a call and we can help select a bull to fit your needs and program. This year we have videos of the offering available online on DVAuction.com or our website [crosshairsimmental.com](http://crosshairsimmental.com). We hope to see you at the sale and see for yourself how a bull from CHSR can add pounds to your calf crop and improve your profitability.

Thank you for your interest and support.

Ben, Cassie, Brinley, Hailey, Jaxson, Jace and Colton Kleppe

# Kuhn's Red Angus • Crosshair Simmental • Huber EY Red Angus

## Friday, April 24, 2020 at 5 p.m. CDT

Napoleon Livestock, Napoleon, ND • 1-800-932-8821 • 701-754-2216

### SALE DAY PHONE:

### SELLING:

- 44 Red Angus Yearling Bulls
- 5 Red Angus 2-Year-Old Bulls
- 34 Simmental & SimAngus™ Yearling Bulls
- 30 Red Angus x Simmental Commercial Open Heifers

With the concern of COVID-19, if you not comfortable being at the sale, please feel free to visit the ranches to look at the cattle before hand. They will also be at Napoleon Livestock on Thursday, April 23 by 5 p.m. for viewing before the sale.

Remember, you can also bid online with DV Auction, or call one of our ringmen to help with phone bidding.

### Kuhn's Red Angus

James, Stephanie Kuhn  
 Elodie, Reagen, Hudson, Brock & Kyah Kuhn  
 6962 28th Ave SE  
 Napoleon, ND 58561  
 Home: 701-332-6378  
 Cell: 701-426-6921

Welcome to our 2020 Kuhn's Red Angus sale. I would first off like to say thank you all for taking the time and consideration to come out here to our sale. I know with COVID-19, it is hard to make the decision to come to the sale or not. So, thank you for those that came out to support our sale, whether in person or online.

To start off, I want to thank our mom, Stephanie. She is a big help, when she wants to be. She is a big help with the paperwork, the cattle. She works off the farm and does a great job of taking care of us kids and the household. Seriously, we couldn't get anything done without her.

Irene: Next is our beloved Irene, mother and grandma. She helps a lot with just watching us kids or picking us up from activities we are involved in. She helps a lot around the farm. If we didn't have her, our next best tractor driver would be Brock and he is only 5. So, to say she does a lot is an understatement. Thank you.

Elodie: After that is Elodie, the oldest of the Kuhn kids and the person who wrote this welcoming letter. I do a lot too. Mostly I help with the other kids and write letters. I am a good helper with cattle because I will stick through it while the others get bored. Also, I don't whine when I must go outside to help.

Reagen: Next is Reagen. Reagen helps when she wants to. But she is a big help when she does decide to help. She plays with her brother Brock a lot too. They like to play tractors together. Most of all she has this big dream to become a vet. She is already planning it all out.

Hudson: Next is Hudson. He, like Reagen, already has big plans. Like Reagen, he wants to be a rancher, they both love animals. But not just any rancher but one with horses. He also loves being active and always is doing something, which usually annoys his sisters, but I guess that's what brothers do, right?!

Brock: Next is Brock. He, unlike Hudson, loves machinery. He is one of the best tractor drivers and knows everything about tractors, what it does and what is broken. Brock would most of the time skip family time if Dad was at home working.

Kyah: Next is our little diva Kyah. She has grown up so much. But I am not saying that she is always a diva. She loves animals like the rest of us. She also is obsessed with makeup! Her favorite accessory is lipstick. She probably is the most spoiled of all of us kids.

James: Last but not least is our dad. Our dad is the most important one of all. He is the runner of our farm and keeps everything in order. But even though he can be serious he can be very humorous. And he can get very cocky too. I love him and what he does.

Again, thank you all for coming out. And I would also like to say, THANK YOU to our long-time customers and the new ones. We would be nowhere without you. You guys are like family to us! So, thank you all for coming again and hopefully you find a good deal.

Sincerely,  
Elodie Kuhn and Kuhn Family

**SALE ORDER:**

The bulls will be sold by a sale order that we will put together sale day.

**CATTLE VIEWING:**

Prior to April 23, Kuhn's Red Angus bulls can be viewed at the farmstead 7 miles south of Napoleon on Hwy 3, 3 miles west then 1/2 mile north.

Crosshair Simmental can be viewed at the farmstead 15 miles north of Napoleon on Hwy 3 and 1 mile west.

Free delivery on bulls up to 250 miles.

**LIABILITY:**

All persons attending the sale do so at their own risk. Kuhn's Red Angus, Crosshair Simmental or Huber EY Red Angus assume no liability, legal or otherwise, of any accidents which may occur.

**Top Dollar Angus Feeder Program**

Top Dollar Angus is a genetic-certification and marketing company focused exclusively on the top 25% of the industry in carcass and growth Angus and Red Angus-influenced feeder cattle. Top Dollar Angus is a program similar to other popular branded-beef programs, except that Top Dollar Angus does its "branding" in the feeder cattle and calf market.

Qualified herds must have two or more generations of Angus (Black or Red) genetics with growth and carcass traits objectively ranking in the top 25% of the breed based on documented historical sire use. DNA evaluation, conducted by Zoetis or GeneSeek, is another workable method to qualify. Once your cattle have met the necessary requirements, they will be marketed under the Top Dollar Angus brand and logo, and will be promoted aggressively to a large number of feed yards and buyers. In today's market, Top Dollar Angus cattle are seeing premiums ranging from \$30 to \$70 per head above the average market.

Why the premium? Cattle feeders know that Top Dollar Angus cattle perform better and have higher grid-based carcass rewards compared to other cattle. This puts more dollars per head into the cattle feeder's pocket, which can be passed back to the producer in the form of premiums paid above market price.

Top Dollar Angus helps take the guess work and surprises out of growing and feeding cattle. Feed yards are tired of unpredictable performance and wide-ranging profitability results from group to group on cattle they purchase. Cattle often look the same and have the same colored hides, but are very different genetically. That's why the genetic certification of high-end Angus and Red Angus feeder cattle is here! The industry must differentiate the best Angus and Red Angus genetics from average cattle, and that's what Top Dollar Angus will do for you!

If you have consistently invested in high-performance Angus or Red Angus genetics, Top Dollar Angus will make your cattle stand out from the pack and get you the premiums you deserve. No matter how you market your cattle, our goal is to create more demand and higher prices for your calves.

**BREEDING GUARANTEE:**

Kuhn's Red Angus, Crosshair Simmental and Huber EY Red Angus guarantee to provide you with a sound breeding bull capable of passing a semen test at 14 months of age.

If a problem arises, the seller must be notified before Sept. 1, 2020. After notification of issue, seller has 90 days to make an adjustment of said problem. It is the buyer's responsibility to return the bull to the seller at the buyer's expense.

If the bull is declared unsatisfactory, buyer will be provided with a bull of equal value or credit given towards the purchase of another bull, seller's choice.

At no time will seller be responsible for more than the purchase price of animal.

Kuhn's Red Angus, Crosshair Simmental and Huber EY Red Angus will do everything possible to make any problem that arises, satisfactory to buyer.

Kuhn's Red Angus, Crosshair Simmental and Huber EY Red Angus strongly encourage taking insurance on your purchases.

**TERMS AND CONDITIONS:**

As soon as any animal is sold, it becomes the responsibility of the purchaser. We will discount \$50 per bull taken home by the customer on sale day. After May 1, a \$2.50 per-day feed cost will be charged.

All sales are in the U.S dollar. Each animal is to be sold to the highest bidder. The auctioneer shall settle any disputes as to bids.

All cattle are to be paid for by the purchaser during or immediately after the sale and will not be removed until after settlement has been made unless prior arrangements have been made with Kuhn's Red Angus, Crosshair Simmental or Huber EY Red Angus.

Napoleon Livestock would like the animals removed from their facility as soon as possible.

**ONLINE BIDDING:**

If you can't attend the sale, real-time bidding and live internet broadcast is available through DVAuction.com. Please see the below instructions on registering and bidding.

**Buyers – View the bulls ahead of time at our ranches and receive a \$100 sale credit!**

Watch & bid online for FREE at

**View the Auction Live!  
Bid Online... you're ringside  
right at your desk!**

**Buying online is as easy as 1, 2, 3...**

1. Create an account at [www.dvauction.com](http://www.dvauction.com) under the "register" tab
2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction-a DV representative will notify you once you have been approved
3. Tune in for the sale and make you purchases!

**High speed internet** is required for successful bidding-be sure to check the lag-time monitor in the top left corner to ensure real-time broadcasts.

**Proxy Bidding**-if you can't make time to watch the sale, register a proxy bid and let our system represent your bid while you're away. Look for the "proxy bid" tab on the auction listing, and fill in your maximum bids. We'll handle the rest!

**Having troubles?** During the auction, you can type a message to the operator at any time for assistance. Our full-time support team can also always be reached at (402) 474-5557.

DVA Rep. Justin Dikoff (605) 290-0635 - email: [jdikoff@dvauction.com](mailto:jdikoff@dvauction.com)  
Please feel free to contact me with questions about the sale or to view the cattle for you.

## 10 Head Red Angus x Simmental Heifers

Scott Moser, Medina, ND ..... 701-269-6348

Selling 10 head of Red Angus x Simmental yearling heifers. These heifers have been selected from the heart of their replacement pen. They have received the full vaccination of spring and fall shots, are Bangs vaccinated and received a PregGuard shot 2 months ago. Contact Scott with any questions at 701-269-6348.

## 10 Head Solid Red Simmental and SimAngus Heifers

## 10 Head Red Baldy Simmental and SimAngus Heifers

Bob and Carol Steichen, Tuttle, ND ..... 701-220-2238

They have had all calfhooed vaccinations. In November they were given the Bovi-Shield Gold, One Shot, 7-Way Somnus, in December they were boosted with Bovi-Shield and Somubac. The heifers are Bangs vaccinated and checked open and breedable by the Steele Veterinary Clinic. Heifers have all been given a magnet at Bangs vaccination time. They are being hand fed 4.5 pounds of grain and given chopped hay. The heifers will weigh 900-950 pounds. Please call Bob for more information.

### Buy a Bull – We'll Buy Your Tags!

If you purchase a bull from us, we will purchase one bag of FCCP or Allied Access tags per bull for you. All you need to do is call the Red Angus Marketing Department, answer a few management questions, and enroll your calf crop for free. Then start reaping the premiums through Red Angus' marketing programs!

Feeder Calf Certification Program (FCCP) "yellow tags" are for bull customers using ONLY Red Angus bulls. FCCP cattle are accepted into the Choice+ Grid and Pro-Cow Program. Cattle enrolled in FCCP are USDA genetic, source and age verified.

Allied Access "green tags" verify source and age for bull customers utilizing halfblood bulls in their planned crossbreeding program.

**RedAngus.org**  
**(940) 387-3502**

### Red Angus Feeder Calf Certification Program

For over two decades the FCCP has been delivering results for bull customers using ONLY Red Angus bulls.

**Genetic, Source & Age**

Released in 2012, Allied Access provides an added-value option for Red Angus customers using multiple breeds in a rotation, hybrids and/or composite bulls to capture heterosis in their crossbreeding programs.

**Source & Age**

**RedAngus.org • (940) 387-3502**

# RED ANGUS GUIDE TO EPDS

- HB** – HerdBuilder is a maternally focused selection index that predicts the probability of developing profitable cowherd traits while maximizing the value of marketed progeny. Expressed as dollars per cow exposure, HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained, and all remaining progeny are marketed on a quality-based carcass grid. (Index/High Value)
- GM** – GridMaster is a terminally focused selection index that predicts the probability to increase the value of marketed calves. GM places selection pressure on growth, feedyard performance and carcass quality, predicting differences in profit as expressed per cow exposure. GM is calculated based on the scenario that bulls are mated to cows only, and all progeny are marketed on a quality-based carcass grid. (Index/High Value)
- CED** – Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams. (Percent/High Value)
- BW** – Birth Weight predicts differences in actual birth weight of progeny. (Pounds/Low Value)
- WW** – Weaning Weight predicts differences in 205-day weaning weight. (Pounds/High Value)
- YW** – Yearling Weight predicts differences in 365-day yearling weight. (Pounds/High Value)
- ADG** – Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. (Pounds/High Value)
- DMI** – Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the post-weaning period. (Pounds/Low Value)
- MILK** – Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. (Pounds/High Value)
- HPG** – Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. (Percent/High Value)
- CEM** – Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers. (Percent/High Value)
- STAY** – Stayability predicts differences in the ability of an animals' retained daughters to remain productive in the herd – calve every year – through 6 years of age. (Percent/High Value)
- MARB** – Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib. (Marbling Score Units/High Value)
- YG** – Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. (Yield Grade Units/Low Value)
- CW** – Carcass Weight predicts differences in actual hot carcass weight. (Pounds/High Value)
- REA** – Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib. (Square Inches/High Value)
- FAT** – Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. (Inches/Low Value)

**Ranch Tested. Rancher Trusted.**

An AI sire that we have used successfully on heifers for quite a few years. We have calved out a number of his daughters and they very functional females. Owned by Buffalo Creek Red Angus, Westphal, 5L Ranch and Loosli farms. Many derivatives of U100 are being used in the Red Angus breed today.

# SIMMENTAL Power of Science.

## Commitment to the Beef Industry.

Committed to data collection and performance-enhancing programs to provide better tools for beef producers.

Focused on science and research to continue advancing technology.

## The Most Profitable Calf is the Crossbred Calf.

## SimAngus™ The Obvious Choice.

"Crossbred steers with a **50:50 ratio of Continental European to British breed** inheritance are likely to produce a more **optimum** balance between carcass **quality grade** and **yield grade** than crossbred or straightbred steers that represent either 100% British breed, or 100% Continental European breeding."

**Simmental Guide to EPDs**

*Courtesy of the America Simmental Association. For more information on EPDs, visit [simmental.org](http://simmental.org).*

**CE** ..... Calving Ease – predicts the ease with which a bull's calves are born to first-calf heifers or mature cows. Larger number indicates higher percentage of unassisted births for calves sired by this bull.

**BW**..... Birth Weight – predicts the difference in average birth weight of a bull's progeny compared to other bulls.

**WW** ..... Weaning Weight – predicts the difference in average 205-day weight of a bull's progeny.

**YW**..... Yearling Weight – predicts the difference in average 365-day weight of a bull's progeny compared to other bulls.

**MCE** ..... Maternal Calving Ease – The ease with which a sire's daughters calve as first-calf heifers or mature cows. Larger number indicates higher percentage of unassisted births for calves born out of this sire's daughters.

**Milk** .... Milk – predicts the milking ability of a bull's daughter. A positive value indicates above average milking ability.

**MWW** ..... Maternal Weaning Weight – predicts the weaning weight of a bull's daughter's calves in pounds. A positive value indicates higher-than-average weaning weights.

**CW**..... Carcass Weight – predicts the difference in average hot carcass weight. A positive number indicates heavier-than-average carcass weights.

**REA** .... Ribeye Area – predicts the average difference in ribeye area between the 12th and 13th rib of an animal's progeny. Express in sq. inches.

**MARB** .. Marbling Score – A subjective evaluation of the amount and distribution of intramuscular fat (IMF) measured between the 12th and 13th rib. A positive value indicates higher-than-average marbling.

**BF or FAT** ..... Backfat – predicts the average differences between an animal's progeny in external fat thickness at the 12th and 13th rib. Express in inches at a given age endpoint.

**YG** ..... Yield Grade – predicts the average differences in cutability and is expressed as a deviation. A negative or lower value is desirable just as a lower Yield Grade is desirable.

**STAY** ..... Stayability – predicts the probability that a sire's daughters entering the herd will stay in production through 6 years of age. A higher value indicates greater stayability.

**API** ..... All-Purpose Index – Evaluates sires for use on the entire cow herd with a portion of their daughters required to maintain herd size and the remaining progeny put on feed.

**TI** ..... Terminal Index – Evaluates sires for use on mature Angus cows with all offspring put on feed. Maternal traits are not considered in this index.

# THRIVE

Ranch Tested. Rancher Trusted.

**Red Angus**  
**RedAngus.org**

Position your ranch to thrive with  
the industry's most-favored female.

An independent university study compared eight years  
of Superior Livestock Auction data, revealing  
Red Angus-sired heifers commanded up to \$11/cwt  
more than females of all other breed types.
