

X Moment

Amazon Echo (Alexa) interface

Created By

Powered By **CASAMBI**

Features & Benefits:

- Powered by 5V Micro USB charger
- 4 to 20 voice commands

Product Description

The latest innovation from estol is a voice gateway for CASAMBI-equipped lights and systems. A smart little box that connects to your WiFi and the CASAMBI Mesh network. No wiring or installation, unpack - plug in the power supply and the smart X MOMENT gateway connects to your WLAN. Easy entry of individual voice commands using your Ipad / mobile phone. IOS or Android. A link via Alexa and you can control your lighting with up to 20 voice commands / light scenes. CASAMBI light scenes, dimming values, colors or on / off or complex group control of lights from every manufacturer who has already used CASAMBI or you upgrade your lights!

Luminaires cannot be operated smarter or more conveniently. Come home and speak your desired light scene in the room and wall lights, floor lamps or table lamps with the dimming and color setting you have set up will switch on, your garden lighting will switch on and the roller shutters move to the desired positions.

At the end of the day, say good night and all lights switch off comfortably via a slow fade.

estol X MOMENT is available as a 4-way voice gateway or a 20-way voice gateway.
