### To friends, family, YouTube clients and staff at Bellevue:

I don't want to alarm you, but I HAD A STROKE on Tuesday, December 9th. Just a normal day and I felt something strange in my nose area, like I was coming down with a cold. I sat down and felt myself drifting to the right and within minutes I fell to the floor and my balance was completely gone. I couldn't stand up so I crawled to the front door and luckily was able to unlock the door. I cracked the door open and waited for someone to come by, which wasn't long. The super came to my rescue and I told him to get Kirsten a friend and artists who lives upstairs above me for the last 40 years. She came down and then I called Robert a friend I work with on videos of his shows and he lives a couple of blocks away. Robert was the one who organized the ambulance and got me to Bellevue hospital. He brought me home today and has been a life saver. I owe him big time.

## MY PERSONAL STATEMENT

		<p>There are times in everyone's life where we are challenged and find ourselves in a fight to survive. In those times we are vulnerable and weak and need help. A stroke is no joke. These young people represent the good among us. They have decided to dedicate their lives to helping others.. They sincerely cared about my wellbeing. I thank them all for making me feel special.</p> <p>O'Delle.</p>
