

# MEDICAL CONTROL DIRECTIVE

## 2023-15

**DATE:** August 1, 2023

**TO:** Pinellas County EMS Agencies  
Pinellas County Emergency Communications  
Pinellas County Certified EMTs and Paramedics  
Pinellas County Certified Advanced Practice Paramedics, Nurses  
Pinellas County Online Medical Control Physicians  
Pinellas County Ambulance Billing and Financial Services  
ED Nurse Managers

**FROM:** Dr. Angus Jameson, EMS Medical Director

**RE:** Stryker Lifepak 15 In-service Training

**DISTRIBUTION/TRAINING PERIOD:** August 1, 2023 - September 30, 2023

**EFFECTIVE DATE:** August 1, 2023

- An “In-service Training” module separate from regularly scheduled CME has been developed and is assigned to all system clinicians through Vector Solutions.
- The in-service includes:
  - New Stryker Lifepak 15 Inservice Training
  - Protocols impacted by implementation of the Stryker Lifepak 15
- The inservice training plan consists of two components:
  - A Vector Solutions assignment consisting of fourteen (14) short videos
    - The assignment will be posted on August 1, 2023
    - Every clinician will receive the assignment regardless of the delivery option
  - A hands-on classroom component with a “ticket-to-play” to complete for each student

- The inservice training has two delivery options:
  - **Option #1 - Hybrid:** The video assignment is completed prior to attending the classroom component
    - A certificate of completion for the video assignment must be printed and brought to the classroom component
    - The classroom component will have at least one CME instructor who will sign the ticket-to-play
  - **Option #2 - Mixed:** The video assignment is completed as a part of the classroom portion of the training
    - Each video is played during the hands-on portion of the classroom component
    - No certificate of completion is required for the video assignment
    - The video assignment will be recorded as completed by the instructor of the classroom component
- The type of delivery will be determined by each Agency EMS Coordinator
- All system clinicians are required to complete both training portions no later than September 30, 2023
- Failure to complete this in-service by September 30, 2023, may result in clinical restriction or suspension.
- The protocols included with this Medical Control Directive are for **TRAINING USE ONLY** and **NOT AUTHORIZED FOR USE** at this time.
