SOUTH-WEST SUBSEA BY EMAIL ATT: CATLIN RUTTER

To Whom It May Concern

I am writing this reference to attest to the professional capacity and skills of the SouthWest Subsea (SWSS) diving team. The SWSS team have provided commercial diving and inspection services to my company, Enviro Infrastructure Pty Ltd, for over 4 years

SWSS have provided services including marine asset inspection, marine construction and underwater cutting and grinding on a number of contracts for us throughout Western Australia.

At all times we have found the SWSS team to be highly competent and flexible in delivery, always working with us to provide the best, most cost-effective solution for our clients.

I would not hesitate to recommend Catlin and the SWSS team for any future works and wish them all the best in these endeavors.

Yours Sincerely,

David Schlueter Director
