

# MAINTENANCE RELIABILITY

Are you looking to:

- Better understand maintenance and reliability practices?
- Recognize and close gaps in your maintenance organization?
- Learn predictive and preventive maintenance?
- Earn certification in the ever-growing field of maintenance reliability?

Make plans now to attend

## **Certified Maintenance & Reliability Prep (CMRP)**

November 1, 2 and 3

8 a.m.-5 p.m.

Tri-County Technical College Pendleton Campus  
Industrial & Business Development Center, Room 140

CMRP is the leading credentialing program for the knowledge, skills and abilities of maintenance and reliability professionals. Earning the CMRP credential indicates that you have achieved a level of ability consistent with the requirements for competence on the job as a multi-skilled maintenance and reliability professional.

**To register, visit [tctc.edu/CMRP](http://tctc.edu/CMRP) or call 864-646-1700.**

This course covers the content from the Society for Maintenance & Reliability Professionals (SMRP) Certified Maintenance & Reliability Technician (CMRP) that you'll need to take the CMRP Certification Exam, including these four areas:

- Maintenance Practices
- Preventative and Predictive Maintenance
- Troubleshooting and Analysis
- Corrective Maintenance

The course will be taught by well-known author, consultant and best practices educator, **Ricky Smith**. He has more than 30 years' experience working across the globe as a maintenance and reliability professional for 100+ companies, including the US Army, Exxon Company USA, Alcoa Mt. Holly, Kendall Company, and Life Cycle Engineering. He is a Certified Maintenance and Reliability Professional (CMRP), Reliability Technician (CMRT) and Certified Reliability Leader (CRL).

This course is available to qualified students at no cost (the cost of the exam is not included). Recommended textbook, Maintenance Best Practices (3rd Edition) by Ramesh Gulati, is available on Amazon.
