

Back Pool Closed Today: 8/22/2018

Good Afternoon Fairfield Residents,

As the workers complete the repairs needed at the main pool located at the Club House, they advised our office that to ensure the chemical levels are balanced at the main pool, they had no choice but to turn off all running chemicals to the back pool for the remainder of the day. With that being said please be advised that the back pool unfortunately will be closed the rest of the day. Without the proper chemicals being applied, swimming is not safe.

*Please understand this was not a decision of the property management company or your Master Board, this was decided to be the safest route by the experienced and licensed vendors working.

MAIN POOL PROJECT UPDATE: The main pool repairs - weather permitting - will be complete by the end of this week/beginning of next. The main pool has been resurfaced, new tiling has been applied to both the main pool & the spa, and the giant hole that was present in the shallow end has been repaired.

If you have any questions or concerns please feel free to contact the main office at (561) 368-5738.

*Thanks,
Ashley Grieco
