 DC GROUND AND TREE CARE LTD

NEW CONTRACT MANAGER ON BOARD

As well as our valued existing clients, 2022 has seen many new business opportunities with new clients and contracts across the UK. To ensure that work is being produced to the usual high standard, DC employed a contracts manager, Brian, in November 2022. This new role will involve organisation of work, communication with clients and monitoring progress and quality of our contracted work. Brian has previous experience in the arboricultural industry, facilitating work on the canal and water networks and will allow DC to increase workload whilst maintaining the high standard of service we currently provide.

Name:
Brian Birchall

Role:
Contract Manager

HAPPY NEW YEAR!

DC GROUND AND TREE CARE WOULD LIKE TO TAKE THIS OPPORTUNITY TO THANK ALL OUR CLIENTS WHO CONTINUE TO USE OUR SERVICES.

WE HOPE THAT YOU APPRECIATE THE CONTINUOUS HARD WORK WE PUT IN TO GETTING THINGS RIGHT FOR YOU AND LOOK FORWARD TO WORKING WITH YOU THROUGHOUT 2023.

CHRISTMAS DONATIONS

AMONGST OTHER CHARITABLE DONATIONS THROUGHOUT THE YEAR, DC IS PROUD TO SUPPORT OUR LOCAL CHILDREN'S HOSPICE, MARTIN HOUSE. THIS WILL BE THE THIRD YEAR THAT DC HAVE DONATED A LUMP SUM TO MARTIN HOUSE, A FANTASTIC HOSPICE THAT SUPPORTS FAMILIES AND YOUNG CHILDREN WITH LIFE LIMITING ILLNESSES.

Martin House
Children's Hospice

OUR FENCING TEAMS HAVE BEEN BUSY INSTALLING AGRICULTURAL AND INDUSTRIAL FENCING. TRACKED POST KNOCKERS ARE USED TO SPEED UP THE PROCESS.

WORK CONTINUES DAY AND NIGHT ON THE HIGHWAYS ACROSS THE UK. WE HAVE BEEN MAINTAINING THE AREAS, CUTTING BACK AND REMOVING VEGETATION AS REQUIRED TO CREATE SAFER ROAD NETWORKS. EFFECTIVE TRAFFIC MANAGEMENT TECHNIQUES ARE UTILISED TO ENSURE SAFETY WHILST WORKING ALONGSIDE MOVING TRAFFIC.

AS WELL AS GENERAL VEGETATION AND AQUATIC MAINTENANCE, WE CONTINUE TO PROVIDE SMALL CIVIL WORKS INCLUDING THIS FEEDER PADEL REINSTATEMENT. NOW THE FEEDER IS REPAIRED AND FUNCTIONING, IT IS SUCCESSFULLY CONTROLLING THE WATER SUPPLY FROM RIVER TO THE CANAL.

WE HAVE BEEN INSTALLING PEAT AND PLASTIC PILED DAMS USING LOW GROUND PRESSURE EXCAVATORS THAT WILL SERVE AS A NATURAL FLOOD MANAGEMENT TECHNIQUE. THE METHOD ALLOWS FLOOD WATER TO BE HELD UPSTREAM AND RELEASED SLOWLY, LOWERING THE CHANCE OF FLOODING IN DOWNSTREAM AREAS.

OUR TRUXORS, CONVERTS AND WEED BOATS HAVE BEEN BUSY CLEARING WATERWAYS INCLUDING THIS MARINA WEED CLEARANCE FOR WHICH A VAST AMOUNT OF AQUATIC PLANT THAT WAS OBSTRUCTING THE WATERWAY WAS REMOVED CREATING A SAFER PATHWAY FOR NAVIGATION.

WE HAVE BEEN CARRYING OUT DEBRIS REMOVAL ON A RIVER. DEBRIS COLLECTS AROUND THE BRIDGE'S STRUCTURES AND CAN CAUSE DANGEROUS OBSTRUCTIONS TO THE WATERCOURSE. OUR EXPERIENCED OPERATIVES ARE ABLE TO WORK SAFELY IN AND OUT OF THE WATER TO FREE THE DEBRIS EFFECTIVELY.
