## Introducing our new UNIMOG

Tackling the overgrown highways

We are thrilled to introduce the newest addition to our fleet – our Unimog with specialist attachments. This versatile vehicle was set straight to work, around the clock, maintaining highway vegetation. Attachments include flail mowers, hedge trimmers, and mulchers. They allow the Unimog to tackle various vegetation management tasks, effortlessly navigating challenging terrains and accessing difficult areas. The machine is now available to hire alongside one of our experienced and qualified operatives.

## A DEC-ade of Dedication

10 YEARS OF DC AND OUR MD DECLAN COLLERAN

This quarter, we celebrated a very special milestone—our Managing Director, Declan Colleran, marked his 10th anniversary since founding the company. Declan started the business at 17 years old, and through vision, hard work and a fantastic team around him, he has grown it into the thriving organisation it is today. Here's to the next 10 years.

## Sustainable Practice

WE ARE EXCITED TO ANNOUNCE THE IMPLEMENTATION OF OUR SUSTAINABILITY REDUCTION PLAN, WHICH OUTLINES OUR COMMITMENT TO MINIMISING OUR ENVIRONMENTAL IMPACT.

Electric Vehicles

Flood Risk Management

Carbon Footprint Planning

Solar Power

Waste Reduction

## Taking Aim at Team Building

Amidst our busy schedules, some of our operatives recently enjoyed a well-deserved break with a team day out at a local clay pigeon shooting range. We take pride in our employees, recognising that they are the backbone of our operations. The day out was a chance to reward our hard-working staff but also an opportunity to foster teamwork and strengthen connections outside of the usual work environment.

## Shaping the Future of Invasive Weed Control

CATCH UP WITH US AT THE 2024 INVASIVE WEED CONFERENCE

As industry experts, we are excited to be attending the 2024 International Invasive Weed Conference. The event will bring together professionals within the industry to discuss and collaborate on best practices for managing and mitigating invasive weed species. If you're attending, we would love to say hello.

Invasive Weed: Japanese knotweed  
Eradication Method: Excavation

Invasive Weed: Pennywort  
Eradication Method: Conver Boats

Our Truxors clearing aquatic weeds. (RSPB)

Supply and install of a floating modular pontoon system equipped with a pump designed to empty the reservoir prior to repair works. (JN Bentley Ltd)

Large floating Pennywort removal job. (Canal and River Trust)
