

## "Beloved Community: Diversity Workshops" with TheUnity

### **Come together through Laughter, Language, Music, Discussion, and Storytelling**

**TheUnity: Dominic Cartwright, Kitsi Watterson & Brother Robb Carter** began as PLP TheUnity (Peace, Love & Power), but our name has evolved to its essence, **TheUnity**, which reflects our belief that **We Are ONE Always!**

For nearly 14 years, we've been *honoring the human spirit with improvisational, soulful, and jazzy music-in-the making, utilizing African rhythms, drums, percussion, wind instruments, and voices raised in song and story to enhance justice and shine the light of our own true nature.*

Now, in addition to performing our music, we're offering diversity workshops to help individuals and groups find new ways of connecting across divisions to create more inclusive, understanding, and compassionate relationships with one another. Now is the time, we all need to heal wounds and open ourselves to harmonious interactions in our homes, neighborhoods, schools, work places, and institutions.

As professionals, we three members of TheUnity have spent our lifetimes helping others share their experiences and bridge differences. Our workshops focus on the therapeutic value and healing powers of listening, connection, and validation. We're reaching for a society based on justice, equal opportunity, peace, and a love of our fellow human beings—fundamental to Dr. King's vision of the "Beloved Community."
