COOKING APPLIANCES

Euphoria[®]

Latest technology, greatest value

EUPHORIA ELECTRIC OVENS

Bring the professional performance and distinctive style of Euphoria appliances to your countertop with this multitasking electric oven. It's ideal for preparing quick meals, baking, broiling, toasting, reheating and more.

The compact oven roasts meat to perfection while a convection fan cooks food quickly.

Precision temperature control is finely tuned and calibrated for ideal cooking performance in each mode.

Convection baking/roasting reduces cooking time by up to 25%, and advanced convection with powerful fan and high-volume airflow vents thoroughly circulates heated air for even roasting and baking with no hot spots.

Two easy-glide racks keep dishes safely within reach and reposition easily into three positions.

Spring-loaded door with seal prevents heat loss and provides gentle open/close.

Oven light lets you monitor cooking progress.
