OTHER PRODUCTS

OM BLUE POWDER-FREE NITRILE GLOVES

OM Blue Nitrile Gloves are suitable for use in many industries, especially in healthcare institutions, workplaces, food, and beverage production with their thick feature. Not containing latex, they are preferred for latex-sensitive people.

- Excellent for food processing and food service thanks to their distinctive and noticeable color.
- Beaded cuff prevents the glove from slipping, allowing long-term use.
- The textured surface on the fingertips provides a more firm grip on both dry and wet items.
- Fits both hands and provides easy movement by taking the form of the hand.
- For single use only. Does not cause sweating. Non-sterile.
- Presented in carefully packed boxes of 10 and 100

OM BLACK POWDER-FREE NITRILE GLOVES

OM Black Nitrile Gloves are suitable for use in many industries, especially in healthcare institutions, workplaces, food, and beverage production with their thick feature. Not containing latex, they are preferred for latex-sensitive people.

- Excellent for food processing and food service thanks to their distinctive and noticeable color.
- Beaded cuff prevents the glove from slipping, allowing long-term use.
- The textured surface on the fingertips provides a more firm grip on both dry and wet items.
- Fits both hands and provides easy movement by taking the form of the hand.
- For single use only. Does not cause sweating. Non-sterile.
- Presented in carefully packed boxes of 100.

OM 3 LAYER SURGICAL MASK

- Produced in a hygienic environment.
- Ultrasonically stitched.
- Complies with European Union standards.
- Certificates: CE, ISO 13485
- High quality, local production.
- Presented in carefully packed boxes of 10.

IV Cannula

Mediflon™ / Super Life

IV Catheter with Port and Wing

It has all the specifications of a standard intravenous catheter.

- Stainless steel silicon tip needle for unproblematic penetration.
- Injection channel with one-way injection valve.
- The notched cap specially designed to close the injection channel and minimize contamination.
- Angled and grooved wings for secure fixation.
- Radio opaque lines for correct radiographic determination.
- Luer cap for blocking the catheter when not in use.
- 6% Luer taper for compatibility with all standard devices.
- Single use, sterile and non-pyrogen.
