# BUILT-IN HOB SPECIFICATIONS

## Maxi Plus Full Surface

Vertically and horizontally we use the all size of the surface for cooking while optimising the burner distances to allow you cook the dishes in all zones at once.

## Maxi Plus Extended Surface

We use all the surface of the top plate horizontally and offer the widest possible cooking surface. Thanks to optimisation the burner distances we create more cooking surface in create in standard cut size.

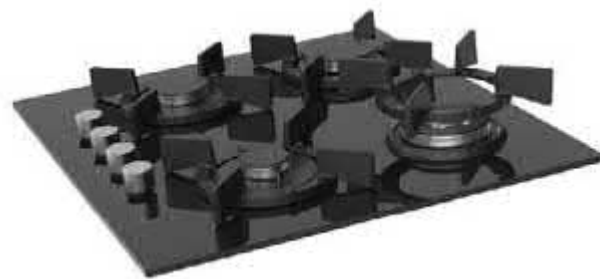

## EASY FIX

We use special connect and fix system in our gas hobs to fix the pan supports in 3 different execution with pins with brackets or with frames in glass. Moreover in metal cooktops we fix the pan supports additional with inserts to offer safe cooking.

METAL

GLASS

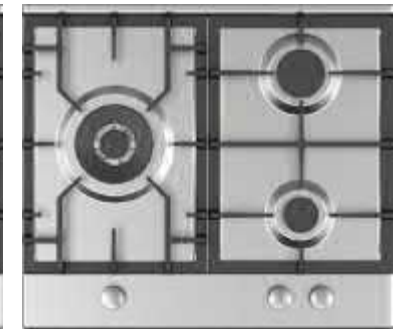

## ZONE FLEXIBILITY

In all gas hobs you are free to allocate any burner to any zone either in glass or electric . We offer max flexibility in any size.

In addition , you can extend the cooking units horizontally and vertically like diamond positioning , 2 long size positioning, etc.

For CIS region , we offer 4 gas in 45cm or double pan support for easy cleaning

TIMER FUNCTION  
AUTOMATIC SAFETY SWITCH OFF  
CHILD LOCK  
FLEX BRIDGE ZONE

# BUILT-IN OVENS

COOL DOOR

Thanks to air circulation door construction cool door gives added safety.

ENERGY EFFICIENCY

Thanks to cavity design the heat transfer and heat lost is minimized to reach higher energy efficiency. Energy Consumption is lower and the heat save is higher We care about saving energy.

LARGE CAVITY SIZE

Thanks to air circulation door construction cool door gives added safety.

SAFE EMBOSSED  
SHALVES

Thanks to molded rack supports with stopper gives easy and safe using trays with hot food

PIZZA MODE

PIZZA select function preheat 10 15 minutes put tray in 1 st shelf level cook and enjoy

EASY CLEAN CAVITY

Easy clean enamelled flat mono split free of bolts free of connection points cavity gives easy and comfortable clean of your oven

EASY CLEAN DOOR

Easy clean enamelled flat mono split free of bolts free of connection points cavity gives easy and comfortable clean of your oven

STEAM CLEAN

Easy clean enamelled flat mono split free of bolts free of connection points cavity gives easy and comfortable clean of your oven

ADDITIONAL  
FEATURES

GREY ENAMELLED  
CAVITY

Grey crystal coated inner cavity for clean and soft view

TELESCOPIC RAILS

Telescopic rails are the perfect assistant and partner for your oven. They offer great flexibility, safety and comfort when baking as they help maneuver heavy trays with ease in and out of the oven. This way you don't have to worry about the close exposure to high heat and the risk of spilling or dropping your food.

CONVECTION

A fan and exhaust system that circulate hot air around the cavity of the oven, reducing hot and cool spots and helping dishes on every rack cook more evenly.

SIDE WIRE RACKS

Removable side racks giving you easy cleaning and safe using moving trays

SOFT CLOSE HINGES

Safe practical and easy using while cooking cleaning

CHICKEN ROTISSERIE

The rotisserie cooks meat to perfection. This convenient accessory for the 60 cm wide oven is not only ideal for chicken spare ribs and other cuts of meat, also tastes delicious when grilled!

CONVECTION WITH  
TURBO ASSIST

Convection ovens can also have a third heating element, called true convection, to help foods cook faster.

Another advantage to convection ovens: the fan and exhaust system reduce the amount of moisture in the oven to help foods crisp and brown on the outside and stay juicy on the inside.

AIR GRILL + FRY TRAY

Fans that circulate heat in either a countertop air fryer or oven cavity to achieve crispy, air-fried food.

ADDITIONAL  
FEATURES

HIGH EFFECTIVE GRILL

Small cake and cookies test results show us high efficiency of the grill cooking function. Height of the cake, bottom surface brown color and homogeneity of the top are exactly as they should be.

MEAT PROBE

Meat probe, the cabled version enables precise temperature control and customized roasting of fish, meat and poultry by measuring the core temperature with a countdown indicator. Handling the food probe is easy and makes menu planning a pleasure.

CATALYTIC PANELS

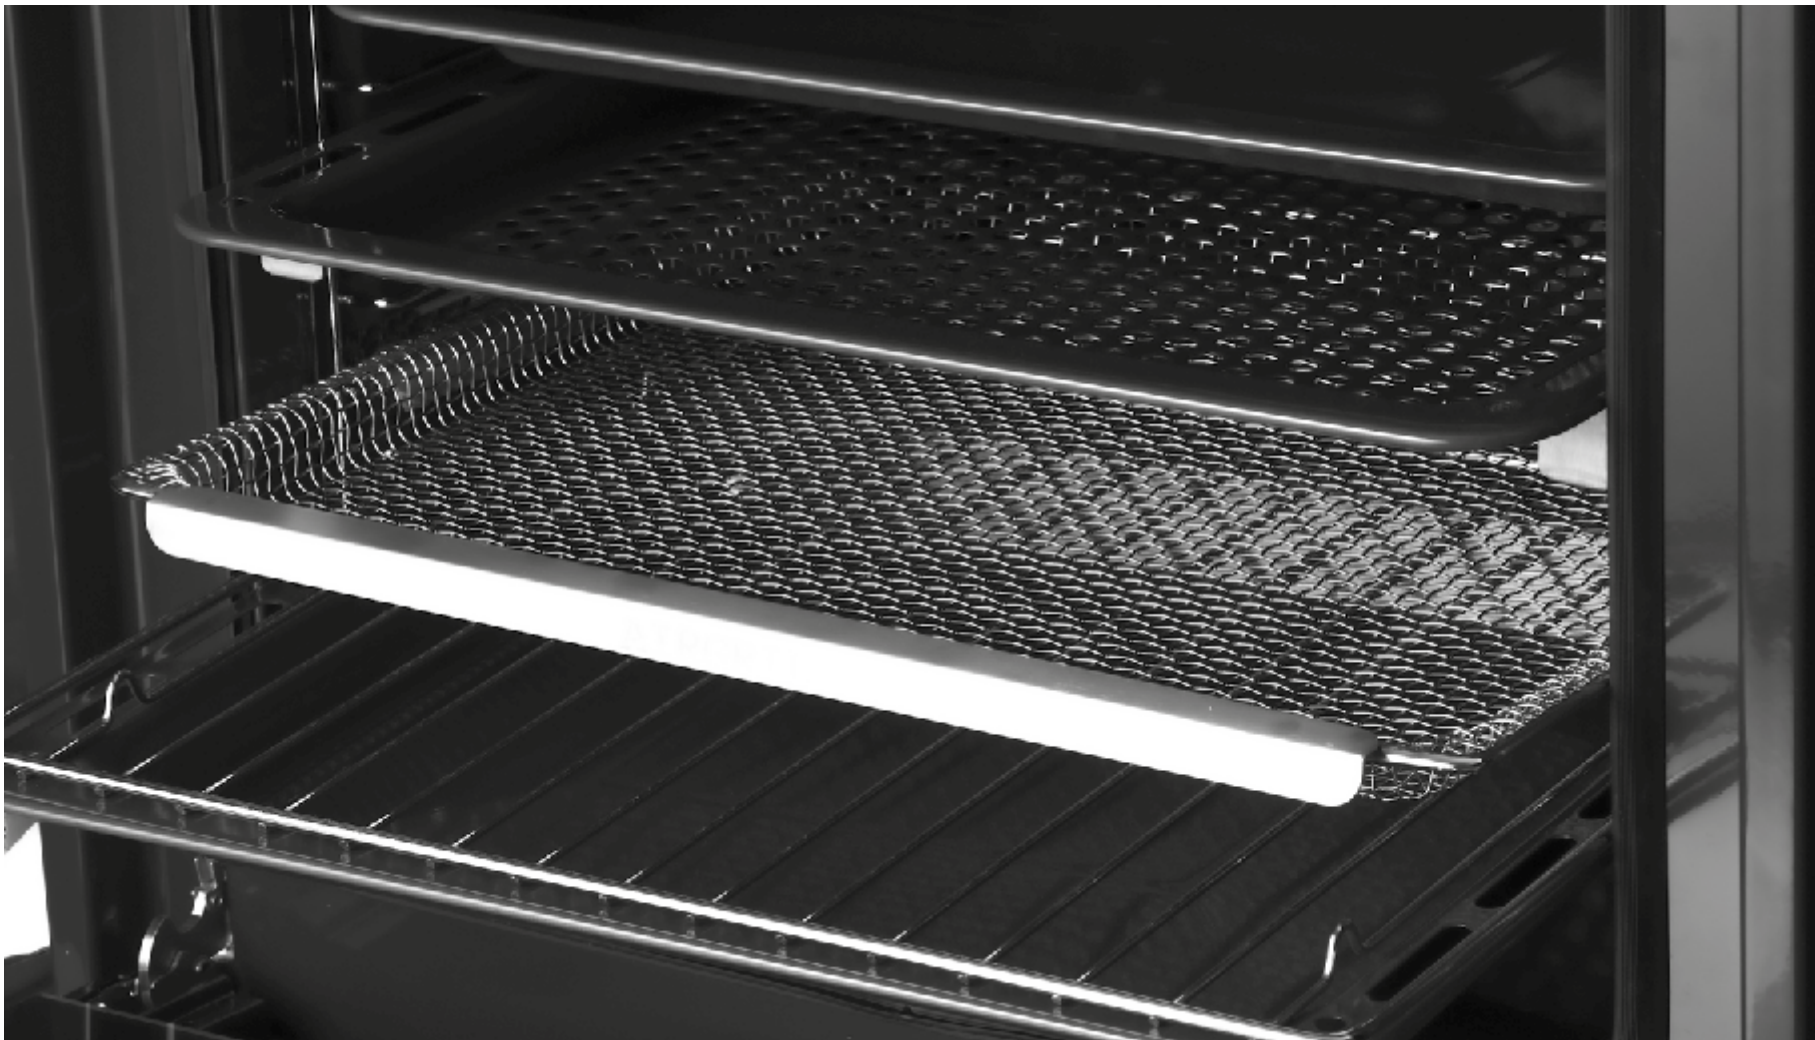

Absorb fat and burnt on food so you don't have to get the rubber gloves on.

SQUARE 2\* SIDE  
LIGHTING

Ideal for big meal controls.

# MIX OF TRADITIONAL AND MODERN DESIGN OF OVENS.

Availability to use with many variants of colors and materials.  
Universal in all kind of kitchens.
