## DOUBLE GLASS

All our models have the Double Glass option to increase efficiency, reduce cooking time, provide higher safety and use less electricity during cooking.

## DEFROST

We have implemented the Defrost function to enable the user defrost frozen ingredients. This function allows you to eliminate spoilage of the frozen ingredients and provide maximum result.

## TURBO FAN

Thanks to our engineers and R&D team, we developed a Turbo Fan Function which distributes the heat in homogeneous waves to provide linear, smooth and great looking meals.

## EASY TO CLEAN

We have developed smooth and easy to clean inner and outer surfaces free of sharp or harmful edges to enable you easily clean the cooker after every meal.

## INNER LIGHT

Many others do provide you this function but very few producers think of the quality of the Yogurt. We provide the best Yogurt consistency through our high technology.

## YOGURT FUNCTION

Many others do provide you this function but very few producers think of the quality of the Yogurt. We provide the best Yogurt consistency through our high technology.

## DIGITAL TIMER

We have an option for Digital Timer modern and user friendly to adjust your cooking period on highest precision.

## POP-UP KNOBS

We provide Pop-Up Knobs option for a high aesthetic look, and also to avoid children interfering with the unit which provides a higher safety perception.

## NON - SLIP FEET

One other key function is Non-Slip Feet which comes standard on all models, to eliminate all possible dangers to the end user during cooking by providing a stable positioning of the unit on counter spaces.

## ROTISSERIE CHICKEN

One of mostly required features of Electrical Ovens; we have optimized this feature and added value through our technological touch.

## CRUMB PAN

To complete the efficiency of our electrical ovens, we also provide a Crumb Tray option.

## GRILL RESISTANCE

Some meals need to be grilled, thus we provide Grill Heating Element option for those meals that need to be cooked at maximum level.

## TIMER TYPES

### MECHANICAL TIMER

---

All our models come with a mechanical timer as default. It provides a safety perception where electrical oven cannot be operated until and unless you adjust the Mechanical Timer.

### 6 BUTTON DIGITAL TIMER

---

This is the basic type of our digital timers where you can adjust and control needed cooking periods manually.

### TOUCH - SCREEN TIMER

---

Advanced sensitivity of our touch screen digital timer will allow you to adjust and control the unit easier with a style.

## TURBO FAN

---

Thanks to our engineers and R&D team, we developed a Turbo Fan Function which distributes the heat in homogeneous waves to provide linear, smooth and great looking meals.

## CRUMB TRAY

---

To complete the efficiency of our electrical ovens, we also provide a Crumb Tray option.

## NON-CUTTING SOFT EDGES

Our 44 years of experience thought us how to solve problems before they occur, just like equipping all our electrical ovens with Non-Cutting Edges. We designed each unit in such a way that all inner and outer surfaces of our ovens have Soft and Non-Cutting Edges to prevent accidents before they occur.

## BETTER HEAT PERFORMANCE

Besides the safety features, we are also highly keen on offering the most efficient way of cooking. Thus, we used the latest technology softwares and simulations to reach the the most excellent heat distribution for a uniform cooking experience.

Electrical Midi Oven

# 35 LITRES

Electrical Midi Oven

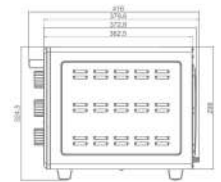

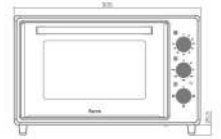

## Specifications

- Upper & Lower Heating Elements ( 0+3 Functions)
- Bimetal Thermostat
- Inox Knob & White Color Handle
- 1 Deep Decorative Oven Tray
- 1 Chrome Coated Wire Grid
- 1 Round Oven Tray
- Mechanical Timer

## Options

- Turbo Fan
- Chicken Rotisserie
- Enamel Oven Cavity
- Hidden Bottom Heating Element
- Oven Lamp
- Double Glass Oven Door
