PROJECT DRAWING & COLD STORAGE DESIGNING

We will come up with the best design to match your needs with its highly experienced project team by choosing for you the:

- ✓ Best building and cold storage ideas and final design,
- ✓ Refrigerant and refrigeration system
- ✓ Food processing and further process machines and systems that you need
- ✓ Special cooling & ventilating systems

WHAT/WHICH WILL BE THE BEST COLD STORAGE DESIGN FOR YOU?

✓ Is your business plan complete?

✓ Do you have your own architecture (team)?

✓ Do you have an agricultural consultant?

✓ Do you have a refrigeration consultant?

✓ Has your specifications list and BOQ been prepared?

✓ Every product has its own storage conditions. What are the products to be kept in your facility?

✓ What is the planned total storage capacity for each product?

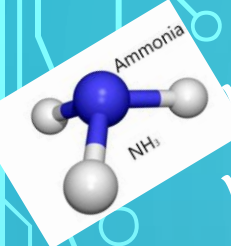

✓ Is there a preferred refrigerant?

✓ Would there be processing machines?

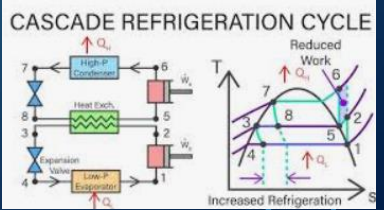

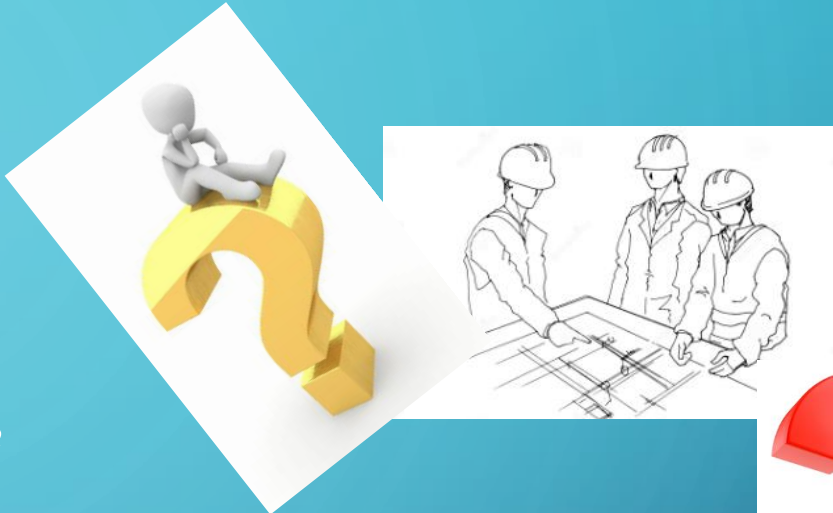

✓ Would there be special cooling, ventilating or air conditioning applications?

✓ What are your special requests?

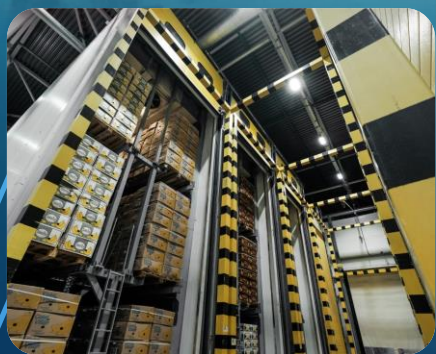

We clarify all these subjects with you and for you before the project preparing phase.
