Ginger Herbal Mouthwash

A gentle, alcohol-free herbal formula enriched with natural ginger extract, known for its anti-fungal, anti-ulcer (anti-canker sore), and soothing properties. Especially suitable for individuals experiencing severe tongue and oral irritation after chemotherapy or radiotherapy. Helps reduce inflammation, relieve soreness, and promote healing of irritated or ulcerated oral tissues. An ideal daily care solution for the elderly and anyone seeking mild yet effective oral support.

Multi-Care Toothpaste

Multi Care Toothpaste offers 8-in-1 protection for complete oral health in one daily formula. It helps prevent cavities with fluoride, strengthens enamel, and promotes healthier gums by fighting plaque and bacteria. Its gentle whitening agents effectively remove surface stains, restoring the natural brightness of your smile without damaging enamel. The formula also helps control tartar buildup, removes plaque, soothes tooth sensitivity, and provides long-lasting fresh breath-making it a complete and convenient solution for your everyday oral care routine.

Sensitive Toothpaste

Sensitive Toothpaste offers targeted relief from tooth sensitivity by using potassium nitrate, a clinically proven ingredient that soothes the nerves inside the teeth. It works by blocking pain signals from the tooth surface to the nerve, gradually reducing discomfort with regular use. This gentle yet effective formula provides ongoing protection against triggers like cold, hot, or sweet foods, helping you enjoy your favorite meals without hesitation. With consistent brushing, it builds a lasting shield of comfort while supporting overall oral health

Gum Care Toothpaste

Gum Care toothpaste is enriched with zinc and methyl salicylate to effectively support gum health while helping to reduce surface stains caused by smoking and coffee. Zinc fights bacteria that contribute to plaque and inflammation, while methyl salicylate soothes irritated gums. This formula not only protects and strengthens gums but also gently cleanses the gumline, helping to restore a healthier, fresher appearance.
