

I'm in Love Again

I've got another chance at love
Don't want to lose control
Tryin to keep a handle on love
Sometimes its hard to hold

Like water flowing down the creek
To the deep blue sea
My love for you is endlessly

I'm in love again
I know our hearts are entwined
We will go through life together
Face each new day like a ray of sunshine

I'm in love again
I made it through all the hurt and pain
I waded through all those tears
Running down my face like falling rain

I'm in love again
Its' a feeling warm deep down inside
A wave of emotion
Strong like an incoming tide
I'm in love again

Who says broken hearts can't mend
You just have to find the right one
Take a chance at love
Start all over again

I'm in love again
Like the wind whispering in the trees
Rustling the branches
Shaking the leaves

I have another chance with you
Together we are stronger than apart
The beauty of this world
Lives in our hearts

Snuggle up next to you
I feel your breath on my cheek

I don't want this feeling to ever end
Let's see what else love has to send
I'm in love again
I made it through all the hurt and pain
I waded through all those tears
Running down my face like falling rain

I'm in love again
It's a feeling warm deep down inside
A wave of emotion
Strong like an incoming tide
I'm in love again
