

## **Innocent Love**

Sweet magnolia blossoms  
Summertime in the rain  
Two lovers strolling arm and arm  
Down a shady country lane

They whisper words of love in each other's ear  
Pledges of promise  
To stay together  
Year after year

Sharing their life together  
All the special things  
Sharing all their secrets  
That true love means

He pulls her close  
And she squeezes him tight  
Two young lovers facing the future  
But they will be alright  
They have

**Innocent Love, Innocent Love  
That's what dreams are made of  
Innocent Love, Innocent Love  
There's no stopping  
Innocent Love**

An old man reaches out and takes the hand of his wife  
She's been with him for fifty years past  
He looks in her eyes and sees that sparkle  
And he knows their love will always last

Every time she touches him  
He feels a flutter in his heart  
Their love continues to grow stronger  
And they will be together till death does them part

The passing of time has not changed a thing  
She is still the beautiful girl he met for the first time  
And their love continues to grow stronger every day  
Like a fine aged wine

## **Repeat Chorus**

Have you ever seen a mother's smile  
When she holds her newborn babe  
In that tender, lovin'  
Special way

Tears of joy bring a mother's smile  
A little bundle of joy made it worthwhile  
Tiny hands give her a hug  
She knows it's because of innocent love

Like all things grand and fine  
She knows the love for her child

Will endure the test of time

**Repeat Chorus**
