

Truckin' On

I've seen the wheatfields of Kansas
The green mountains of Tennessee
Loaded with freight from the New England States
Headed west to the Pacific Sea

Changing gears and picking up speed
Got a long way to go
Got to get there today, can't wait for tomorrow
Got freight to unload

I glance at my watch and I'm runnin' late
Seems I'm always chasing time
Send this old diesel hurtlin' down the road
Chasing the little white line

**13 gears and 18 wheels
Big old cab I call my home
Yeah, I'm trucker and I'm
Truckin' on**

I've been from Canada to Mexico
And all the places in between
Seen the Statue of Liberty
Driven the wide open plains

Steel mills up in Pennsylvania
Down to the Jersey shore
Loaded with oranges from the Sunshine State
They sent me back for more

I've been called the last pioneer
That travels these roads today
All I know is that I'm
A country boy driving truck to earn his pay

And every time I hammer this old diesel down
I know this is where I'm gonna stay

Down at the Port of New Orleans
They gave me one heck-u-va load
Got to be in Amarillo by morning
Brother let that Rubber hit the road

Flip the key and the engine hums
Sweetest sound around
Changing gears, wheels rolling out
Leaving this Bayou town

Repeat Chorus
