

# WHO WE ARE

## APTITUDE AND SOFTSKILL

Aptitude training develops skills for specific jobs, including numerical and verbal aptitude, logical reasoning, problem-solving, and data interpretation. It improves job-specific skills, enhances problem-solving abilities, boosts confidence, increases productivity, and supports career advancement.

## TECHNICAL TRAINING

Technical training enhances skills for IT, engineering, healthcare, data science, and cybersecurity. It includes classroom instruction, online courses, and hands-on training. Benefits include improved skills and better career opportunities.

## COMPANY SPECIFIED TRAINING

Company-Specified Training is customized to meet an organization's specific needs and goals. It covers various training types, methods, benefits, delivery approaches, evaluation processes, and industry applications.
