

Centre Update - Re-Opening Status

The Ontario government, has now released its [Roadmap to Reopen](#), a three-step plan to safely and cautiously reopen the province. In this plan it shows that we can re-open during Step One. It states that under Step One - "Sensory deprivation pods permitted when prescribed by a regulated health professional".

This means we can re-open as long as everyone who is floating has been prescribed floating by Regulated Health Professional (Nurse, Doctor, Chiropractor, Physiotherapists, Massage Therapist, Therapist, Psychologist, Social Worker etc.)

Roadmap to Reopen at a glance :

Subject / Sector	Before Step One	Step One	Step Two	Step Three

Personal care services	Closed	Closed Sensory deprivation pods permitted when prescribed by a regulated health professional	Open at 25% capacity to maximum of 5 people Appointment required Services that require the removal of a face covering not permitted Only patrons being served can be in the setting	Open with capacity limited to permit 2m physical distancing and other restrictions
-------------------------------	--------	---	--	--

After the government of Ontario's June 2nd announcement, we will not be able to open until Monday June 14th. As we are closed on Mondays/Tuesdays we will most likely be re-opening Wednesday June 16th.

We are not taking any appointments yet but will be sending out an email/social media post as soon as we do. Until then we patiently await our return and look forward to seeing everyone again soon!

Each customer is therefore required to provide a Regulated Health Professional Note prior to floating while under Step One of Re-opening.

Regulated Health Professional Note Requirements / Sample Note

All Notes Must Have

1. Professional Letterhead
2. Prescription/Recommendation for Floating
3. Registration Number (To Show they are supported by RHPA)
