Our why

At Iberostar, we believe your day should be done your way, which is why we have re-imagined everything about our destination wedding program.

We wanted more authenticity. Complete customization. And a greater guest experience. We have added so many fresh features to create a truly cohesive wedding experience. We provide total customization, enhanced sustainability, and so much more for your guests to enjoy too. After all, you are here for the day of your dreams, and we are prepared to live up to that promise. Simply dream it and we will deliver. Take a deep dive into the following pages, to get informed and inspired on everything we are thrilled to offer you for your “I do.”

Ever Green Weddings

We stand for sustainability, and we have infused it into everything we do, including our weddings. We have worked to raise the bar on everything you thought a sustainable wedding should be, to actually enhance your day.

We achieve this by utilizing beautifully crafted, wooden tables to reduce washing of linens. Fine flatware over plastic, plated meals instead of buffets, indigenous florals, recyclable paper pieces, and reusable table numbers are just a few measures we are putting in place. And that is just the icing on the cake.

- Stats:
1. The average wedding of 120 people produces 400 pounds of garbage, so 2.5 million weddings amount to more than 1 billion pounds of trash every year.
 2. The average wedding creates 63 tons of CO₂ emissions, which is the equivalent of driving 150,000 miles in a passenger car.
 3. The average meal travels 1500 miles to get from farm to table, requiring more greenhouse gases used and preservatives added to the food

Elements of Ever Green Weddings

- Eliminate or minimize environmental offenders: Balloons | Confetti | Exotic Flowers | Paper Decorations
- Use bare wooden tables to limit washing of linens
- Consider a seafood or plant based menu, as it reduces carbon emissions
- Plated menus create much less waste than buffet style meals
- Rental of suits or dresses or alternative attire like linen shirts and khakis, reduces use of non-sustainable materials
- Using locally sourced and in-season florals or simple greenery
- Non-paper options for table numbers and menu cards
- Gifting your guests something locally made
- Fine silverware, china, and stemware eliminates the need for plastic options
- Take part of our environmental conservation movement.

Weddings Unpacked

Where other resorts explain your limitations, we cultivate your ideas. Where they tell you what they have, we ask you what you want. Which is why we have peeled back our packages, so we don't limit your imagination in creating your perfect day. Instead we will connect you with your Romance Team, a group of highly-capable visionaries dedicated to your day. They will walk you through a seamless experience to uncover your dream day (even if you don't yet know what that looks like), and design something completely custom and unique designed for you. Simply put, you dream it, and we'll deliver it.

We are living proof that sustainable weddings should not have to sacrifice any of the sophistication. In fact, we have enhanced this one in particular through natural tables, beeswax candle lighting, local lush greenery and locally sourced florals. What we have created is an eco oasis that looks absolutely stunning while fully aligning with our sustainable focus.

A thousand
different days

Done a thousand
different ways

While the beach may be the obvious option when it comes to destination weddings, you owe it to yourself to discover a few of our alternatives that are straight out of a storybook. Like the lush green backdrop of the jungle. The sweeping views from a private terrace. The mesmerizing blues of our majestic pools. Or the flora and fauna that sets the stage in one of our manicured gardens. We never said the choice would be easy, only that it would be worth it.

Where the possibilities
are endless

The process

Capture your Vision: We start with a comprehensive questionnaire to give us the best possible view of your vision and how your dream day will play out. Once complete, the Romance Designer will get to work creating your custom mood board and bringing your concept to life.

Meet Your Team: The Romance Team is a full-scale group of highly-trained professionals ready to navigate you through the process from start to finish. From your first point of contact with our Romance Director, to the Romance Team working with you to build your vision, and the wedding designers on-site to bring everything to life. We are passionate about all things wedding and providing all the support you need.

Finalize Your Look: When it comes to your final look, we won't stop until you are over the moon. That means, we will revise your wedding experience until we get it just right. From the look of the ceremony, the reception menu, the cake, the signature cocktails, and everything in between, we guarantee a day you, your friends and your family will never forget.

From one foodie to another

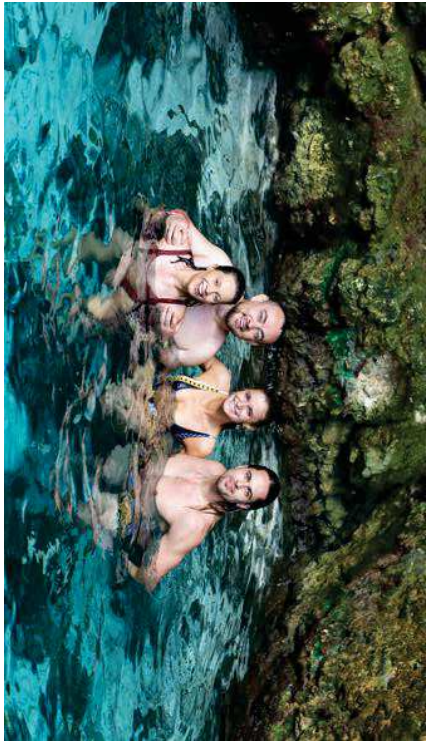

the sky is the limit

We agree that the food can make or break your event, and we are not without the options to enhance your experience. Want a thick-cut handmade burger grilled to perfection by one of our acclaimed chefs? Maybe an assortment of fresh seafood? Or chocolate truffles crafted by a pastry mastermind that will delight your every taste bud. Triple check. Whether you are going for a creative display, or gourmet food that's made from scratch, we are prepared to bring you both. And with our new 2/4/6/8 menu, choose the options and amounts that best serve your crowd.

To their left is a large, reddish-brown terracotta sculpture of a human head with a wide, flat top and large, circular earlobes. The man is wearing a light purple t-shirt, sunglasses, and a watch. The cherries on top

WELCOME BASKETS

Wedding favors are a tradition that have stood the test of time. That's why we have made it easier than ever for you to thank your guests with a gift. We uncovered a way to make your gratitude work smarter, not harder. Now, you can choose individual "Welcome Baskets" for your guests to receive. We have an a la carte menu of options to choose from, or some pre-packaged options of baskets based on categories, like "Life of the Party," "The Greener Experience", "Pamper Me Please", or "Adventure Awaits." You pick what you want, who you want them to go to, and we'll make sure to deliver. You're welcome.

POP-UP STAR CAMPS

Star-camp provides an incredible resource for those traveling with children. It allows them to provide their kids with an exciting and enriching experience while they attend the adults-only activities throughout wedding week. And now, we have taken it a step further. For those craving the uninhibited enjoyment of the wedding and reception, free from keeping an eye on your kids, we have created a Pop-Up Star Camp. This allows our younger guests to live their best life too, under full supervision of one of our highly certified staff members, who will keep them engaged in activities. However, they will be close by so you can always check in on them should you so choose. Another win-win.
