OUR CENTRE

The Gelantipy District Bush Nursing Centre has served the township and surrounding community since the 1960's.

The Centre is run as a non-profit organisation and is managed by a Committee of volunteer community members in accordance with guidelines set by the Department of Health.

The nurses manage a wide variety of matters, both urgent and routine.

The nurses liaise with other health professionals on an "as needs" basis to ensure a continuity of care. We work with you and the people who support you to help maintain or regain independence to stay active and self sufficient in your home.

The staff and Committee are happy to hear your ideas for providing or enhancing our services.

MISSION STATEMENT

The Gelantipy District Bush Nursing Centre services the holistic health and wellbeing of the local residents and transient population by providing multi-skilled, professional nursing.

We provide a high-quality, culturally-appropriate, flexible and innovative service that aims to ensure the safety and wellbeing of the community in their chosen environment.
