

Bush Nursing Centre Inc

## Strategic Plan on a Page 2025-2027

**Vision:** The community of the Gelantipy District reach their utmost potential in relation to health & wellbeing.

**Mission:** Service the holistic health & wellbeing needs of both the local residents & transitory population.

| Strategic focus              | SMART goals                                                                                                                     |
|------------------------------|---------------------------------------------------------------------------------------------------------------------------------|
| Hearing Our Community        | We are committed to hearing our communities voices for understanding & to meet their health & wellbeing needs                   |
| Nurse-Led Service Delivery   | We will have a strong & robust, Nurse-led, service delivery                                                                     |
| Sustainable Workforce        | We will co-design with our Strategic Partners a collaborative approach for a sustainable plan for future workforce capabilities |
| Our financial sustainability | We will continue to be financially robust                                                                                       |
