**** COMMUNITY SUPPORT IS VITAL TO MAINTAIN THIS GREAT SERVICE ****

Thunderstorm asthma can be life-threatening

In Victoria, even if you have mild asthma or hay fever, you are still at risk. Reduce your risk by preparing for spring and summer thunderstorms.

Avoid thunderstorms – go indoors before and during thunderstorms.

Take medications as directed and learn asthma first aid.

For forecasts and alerts, download the VicEmergency app.

See your GP about an asthma action plan or hay fever treatment plan.

Donations Making a Difference

We have recently purchased a new defibrillator machine for our community in W Tree from donation monies received.

The new defibrillator is located at the Sunrise Co-Op

#thankyou

DID YOU KNOW?

Beards are the fastest growing hairs on the human body. If the average man never trimmed his beard, it would grow to nearly 30 feet long in his lifetime.

The Gelantipy District Bush Nursing Centre would like to acknowledge the Traditional Owners of the land on which we gather, and pay our respects to their Elders both past and present
