

## God's Character Score

Our assessment out to involve all areas of life combined: work, school, family, friends, alone, pets, house, chores, finances, health etc. We ought to not only use our assessment, but think of how other might score us as well. How would our spouse, boss, teacher, friends score us? With all this in mind we use our best guess to choose a number for each character. Such thinking can help us understand our spiritual condition and bring to light areas where we can grow.
