## THE HELICOPTER

Make your very own little helicopter and see how helicopters like Ronnie work!

You will need:

- Pencil – Scissors – A paper clip - Crayons or markers

1 - Print-out the next page and cut out the outside lines

2. Cut along the solid lines only. Fold on the dotted lines.

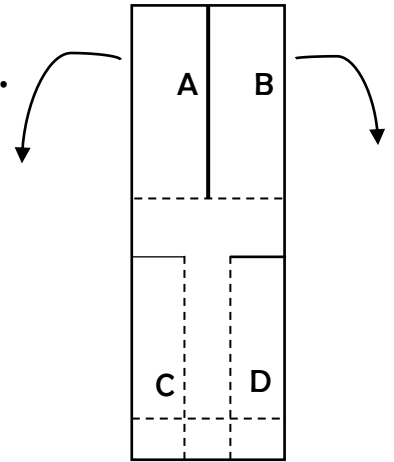

3- Fold A toward you. Fold B away from you.

4. Fold C and D over each other so they overlap.

5. Fold the bottom up and put a paper clip on it.

6. Hold your helicopter by its paper clip. Throw it as as high and far as you can. It will spin before it lands. You can ask a grown-up if you can stand on a chair or on the stairs and drop it.

7. You can use crayons or markers to decorate your your helicopter before you fold it. The colors will make a cool design when you spin it.

Join in! Ask a grown-up to post a picture of your helicopter to:

[facebook.com/DavidHoppmann.RonnieTheHelicopter/](https://www.facebook.com/DavidHoppmann.RonnieTheHelicopter/)

Take to the skies for learning adventures with **Ronnie the Helicopter** and his flying friends.
