Dick Perry coordinated the sale of some property my family owned near Corpus Christi, TX. It had been in the family for many years and through various wills and gifts ended up with 10 different undivided owners. Coordination of this sale was a bit like herding cats. Dick did a superb job of coordinating transactions and communicating with the family. I always felt like he was being honest and straight forward with me and my family. I would recommend him to anyone selling property in the Corpus Christi area.
