

Enhancing Medicaid Eligibility *with* AUTOMATED MAIL ROOM

WHY

Handling returned mail is a persistent challenge for government agencies, leading to lost benefits and increased administrative work. With the end of Continuous Medicaid Enrollment, outdated addresses now threaten healthcare coverage for many, burdening an already stretched workforce due to federal requirements for returned Medicaid Renewal packets.

WHAT?

With our Automated Returned Mail Processing and Outreach solution, you can:

- Adhere to federal CMS regulations
- Free up valuable caseworker hours
- Maximize opportunities for your clients to retain Medicaid and other program eligibility.

HOW?

Simply scan our QR code to delve deeper into the world of automated returned mail processing and outreach. Discover how this technology can streamline your operations and improve client engagement.
