

After meeting Jake and Gracie through a read aloud with your students, you are ready to dive deeper into A Night to Remember. The next time you read aloud this story with your young learners invite them to bring a clipboard and one of the included graphic organizers to your meeting spot. As they enjoy the story again, they can take a closer look at the characters, their relationship, and the setting of the story. All of which result from different perspectives! Look at the night through the eyes of Gracie. What does she see, think, and feel? Then take walk in Jake's shoes to see his side of the story. It is quite different!

As always, continue to share your love of learning with children and help them develop their wings to fly!

Jake...
