

SuiFaring World (SEA) White Paper

Version 1.0 | May 2025

"If we save the Sea, we save our World"

Abstract

SuiFaring World (SEA) is an environmentally driven cryptocurrency project operating on the SUI blockchain. Born from the confluence of ecological urgency and blockchain innovation, SEA is a token that symbolizes and finances action for oceanic conservation. Built around the powerful metaphor of "seafaring" and inspired by the Japanese meaning of "Sui" (water), SuiFaring World uses gamification, NFTs, and DeFi principles to raise awareness and empower a decentralized movement to restore marine ecosystems.

1. Introduction

The health of Earth's oceans is in critical decline. Overfishing, plastic pollution, acidification, and warming threaten not only marine life but the global climate, biodiversity, and human survival. SEA proposes a solution rooted in community, decentralization, and blockchain transparency. By leveraging the SUI blockchain's water-aligned identity and fast, low-cost, and scalable architecture, SuiFaring World envisions a tokenized world where saving the sea is an act both ethical and economic.

2. Token Overview

- **Token Name:** SuiFaring World
- **Ticker:** SEA
- **Blockchain:** SUI Network
- **Contract Address:**
ox12353abe806f20435e5c6a50c10aecfbd59be309afa18a973ade0224811d22c::sea::SEA
- **Max Supply:** 10,000,000,000 SEA
- **Circulating Supply:** 100% (All tokens released to the free market)
- **Dev Allocation:** 1% (Visible on Suivision and Suiscan)
- **Liquidity & Trading:** Fully community-distributed; trading available on RaidenX

Parameter	Details
Token Name	SuiFaring World
Symbol	SEA
Blockchain	SUI Network (Layer-1)
Contract Address	0x12353abe806f20435e5c6a50c10aecfbd59be309afa18a973ade0224811d22c::sea::SEA
Max Supply	10,000,000,000 SEA
Circulating Supply	100% (All tokens distributed to the public)
Developer Allocation	1% (Locked, visible on SuiVision & SuiScan)
Liquidity	Locked; trading available on RaidenX, Cetus, MovePump

Key Features:

- No pre-mine, no VC or insider allocations
- All token movements and holdings are transparent on SUI explorers.
- Developer allocation is minimal and locked for ecosystem growth.
- **Blockchain:** SUI (object-centric, Move smart contracts)
- **Performance:** High throughput (300,000+ TPS), instant finality, low fees
- **Consensus:** Proof-of-Stake (eco-friendly, low carbon footprint)
- **Security:**
 - Open-source, audited contracts
 - No admin backdoors
 - Liquidity locked to prevent rug-pulls
- **Integrations:**
 - SuiVision, SuiScan for real-time on-chain data
 - SUI-compatible wallets (Sui Wallet, Ethos, Suiet)
 - NFT and DeFi platforms (BlueMove, Clutchy, Cetus)

3. Mission Statement

SuiFaring World exists to remind humanity of its aquatic origins and shared destiny. By embedding ecological values into the fabric of digital finance, SEA offers a route for individuals to act meaningfully. Every SEA token is a statement: that the time for passive environmentalism is over, and that collective crypto-native action can reshape the trajectory of planetary health.

4. Use Cases

- **Conservation-Backed NFTs:** Represent endangered marine species, with sales funding ocean protection initiatives.
- **Play-to-Earn Ecosystem:** Ocean-themed games where in-game actions support real-world conservation.
- **DeFi Staking Pools:** Participate in liquidity provision or ecological bounties where APY is tied to verified environmental actions.
- **Educational Metaverse:** Immersive experiences that simulate oceanic restoration scenarios and reward players with SEA.

Use Case	Description
Play-to-Earn	Earn SEA by completing in-game quests, learning about marine life, and participating in events
NFT Access	Use SEA to mint, buy, and trade unique marine-themed NFTs with real-world conservation impact
Governance	Vote on proposals, direct platform development, and select which conservation projects to fund
DeFi Staking	Stake SEA for rewards, provide liquidity, and earn LP tokens
Direct Donations	Fund marine NGOs and receive impact NFTs and updates

5. Technical Advantages of the SUI Blockchain

- Ultra-fast finality and high throughput suitable for gamified microtransactions.
- Object-oriented data model supports complex NFT-based gameplay and governance.
- Low transaction costs enabling global accessibility.
- The symbolic alignment of "Sui" (water) with oceanic themes strengthens narrative cohesion.

6. Transparency and Governance

- **Supply Distribution:** 99% community-owned; fully transparent via Suivision and Suiscan.
- **Smart Contract:** Deployed and verified on MovePump.
- **DAO Roadmap:** Community governance via SEA DAO with quadratic voting and carbon-weighted proposals.

7. Ecosystem & Links

-  **Website:** suifaring.world
-  **Twitter/X:** [@SuiFaring](https://twitter.com/SuiFaring)
-  **Telegram:** t.me/+lk7-2faFdCZlNzdk
-  **YouTube:** [SuiFaring World Channel](https://www.youtube.com/SuiFaringWorldChannel)
-  **Email:** sui@suifaring.world
-  **SuiVision Explorer:** [View SEA on SuiVision](#)
-  **SuiScan Explorer:** [View SEA on SuiScan](#)
-  **Trade SEA:** [MovePump SEA Token](#) | [RaidenX SEA/SUI](#)

8. Closing Statement

SuiFaring World is more than a token; it is a declaration of planetary guardianship. By building a decentralized movement centered on oceanic healing, SEA token holders become custodians of both value and life. As our motto declares: **"If we save the Sea, we save our World."**
