## 2026 CAN MAN TRADE SCHOOL SCHOLARSHIP, IN MEMORY OF ROGER KLEIN (1938-2020)

---

**History:** For 40 years Roger Klein rode and pushed his tricycle to and throughout Hot Springs and beyond, up and down the steep hills, collecting cans to recycle, no matter the weather. By mid-day his tricycle would be heavily laden with bags of cans, yet he somehow managed to strap more to the load. Locals quickly learned to save their cans for Roger, who would collect and store them until he could haul them up to Rapid City for recycling.

Roger's work ethic was not unlike that of the dedicated ranchers whose land surrounds Hot Springs. Bitter cold, pouring rain and relentless heat never stopped a cattleman from caring for his herd and never stopped Roger from his daily work. He used his earnings for spending money, travel and charitable donations. Although most of us only saw him in his work coveralls or ragged shirts, Roger was a dapper dresser when he traveled or took his mother out for dinner at Maverick Junction, wearing one of his many elegant suits and ties, his patent leather shoes polished to a high shine. He never finished high school but would happily talk politics and current events with the many people who stopped to visit with him throughout his day—perhaps that is why his 'day' often stretched until well after dark.

Roger lived his entire life with his mother, Gweneth, until she passed in 2018, then continued to live in the family home until 2020, when he walked out to check his mail one day and stepped into the path of an oncoming car. Roger was 80 years old; his lanky body was bent to a 45-degree angle from 40 years of pushing his heavy loads.

**The Scholarship:** Community members, with the blessing of Roger's brother, Bob, created this trade scholarship to honor the memory of Roger Klein, Hot Springs' South Dakota's beloved 'Can Man'. A nonprofit was formed, with the mission: "... to further the pursuit of skilled trades as occupations that bring value and meaning to our nation's economy and to her culture of individual purpose and community strength."

Scholarship amounts are not pre-defined but vary based on funds available each year. The community has been incredibly generous and supportive in growing the fund. The Selection Committee determines annual awards based on the amount of money available and the applicant's qualifications.

### Eligibility Criteria

These scholarships are intended to further the applicants' certification in vocational trades, rather than in baccalaureate or advanced degrees. While these trade certifications may be achieved by earning associate degrees, they may also be certifications of any sort that qualify one for a trade, whether that certification can be achieved in weeks, months or years. Apprenticeship programs may qualify.

- An applicant should be one or more of the following: 1. A resident of Fall River or Custer County in South Dakota. 2. A graduate of a high school in either county. ('High school' includes public, private and home-school). 3. The recipient of a high school equivalency certification earned while residing in one of those counties. (If applicant has not received a high school diploma or equivalency but is accepted by the education program and has lived in either of these counties, his application may be considered.)
- There are no age restrictions. Non-traditional students are encouraged to apply.
- Weight may be given to regional schools, but there are no geographical restrictions.
- Applicant must have been accepted to and scheduled to begin the certification program within 12 months of application deadline or already be in the programs.
- Payout of the scholarship award will be made directly to the school/program. Weight may be given to programs based in part on their perceived benefit to the needs of the region.
