

Saratoga Park 4B Community

Hurricane Irma is finally gone and we are all happy about this!

We hope your beautiful homes had minor to no damages as this was an intense and powerful Hurricane. Assuming everyone has power in the community by now, we hope cleaning efforts to any damages to your homes have commenced.

Your Board wants to extend 15 extra days to complete any fence damages etc....should you require more time please send an email to: Aubrey Woller your Community Manager making sure you put on the subject line your; home number or lot number and reason for the extension.

On our next property walk rest assure we won't be sending any violations for any apparent damages as a result of the Hurricane but we will however, continue updating any outstanding violations. Recently throughout the community we have seen neighbors helping each other prior and after this violent Hurricane this is what being part of Saratoga Park 4B is all about...as our mission states reads,

" Together We Can Make A Difference."

We hope that your families, friends and loved ones regain power soon too...
