

# VERSATILE PERFORMANCE, PRECISE RESULTS

## SK DRUM MULCHER OD PRO X

Innovative drum design provides maximum productivity with open drum flexibility.

Engineered with an optimized infeed and bite size, the skid steer Drum Mulcher OD Pro X (Open Drum) delivers the best of both worlds, producing a smaller end product than conventional open drum models while allowing ground engagement for maximum productivity.

## SPECIFICATIONS

 CUTS UP TO 9" DIAMETER BRUSH & TREES

 AVAILABLE CUT WIDTH 60" | 72"

 FLOW RANGE 27 - 50 GPM

 2,350 LBS | 2,900 LBS

## IDEAL APPLICATIONS

 GROUND ENGAGEMENT

 OVERGROWN PROPERTY

 UTILITY MAINTENANCE

 ROADSIDE MAINTENANCE

### OPTIMIZED OPEN DRUM INFEED

- Larger opening allows teeth to pull in whole limbs, creating mulch inside the processing chamber
- Directional rake tines disrupt material flow, deflecting vegetation back to the rotor and shredding chamber for smaller mulch after the first pass.
- Optimum shredding performed in the drum chamber reduces the need for back-dragging

### TWIN MAUL® CARBIDE TEETH

- Tough enough to tackle ground engaging jobs in rough, rocky terrain
- Effectively processes material, producing a finer mulch
- Tooth life 3-to-5 times longer than steel, and require no sharpening
- Domestically-sourced virgin carbide

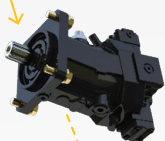

# SK DRUM MULCHER OX PRO X

Replaceable abrasion resistant **AR 400 LINER** minimizes wear from debris

**HEAVY DUTY PUSH BAR** features extended side plates with serrations to push & clear brush

**VARIABLE DISPLACEMENT PISTON MOTOR** for maximum productivity

**ACCESS PANEL** for ease of maintenance

Equipped with **TWIN MAUL® CARBIDE TEETH** for low maintenance durability  
*\*Additional teeth options available*

**SEVERE DUTY RATED BEARING** protected by labyrinth design

**STANDARD CHAIN GUARD** contains the mulch for a cleaner work site

**\*MINIMUM 1/2" THICK POLYCARBONATE OPERATOR PROTECTION REQUIRED. SOME APPLICATIONS MAY REQUIRE ADDITIONAL PROTECTION.**

## TEETH OPTIONS

### TWIN MAUL® CARBIDE

» Designed to withstand abrasion and extreme ground contact.

#### IDEAL FOR

- » Rocky Terrain
- » Fire-Danger Areas

### TWIN CHISEL® PLANER

» Truly the best of both worlds for productivity and easy maintenance. Made out of hardened steel, our design allows you to quickly sharpen the cutting edge to maintain maximum productivity.

#### IDEAL FOR

- » Softer Soils
- » High-Productive Environments

### FOUR POINT HARDENED STEEL

» Acts like an axe to slice material for the most productive cut. The more aggressive design allows you to grab and pull in material more effectively.

#### IDEAL FOR

- » Finer Mulch
- » Limited Ground Contact

### ARMORED MAUL™ PLANER

» Heavy-duty construction is designed for those working in tough, rocky terrain. It's increased inertia through every cut, and added material protecting the tooth holders, helps reinforce the tooth for a longer life.

#### IDEAL FOR

- » Tough/Rocky Terrain
- » Ground Engagement
