Improving Understanding in NW Georgia

The Building a Region of Resilience Initiative is a Resilient Georgia, grant-funded project. It is designed to build capacity, increase community awareness and advocate for systems change that improves resilience and long-term outcomes for children and families in northwest Georgia.

Becoming trauma- and/or poverty-competent is a journey. Like all journeys it begins with taking the first step, in this case making a commitment to change. It will take time to build your capacity and skills. In the meantime, you can start building resilience today by getting more information about poverty, trauma and resources available in NW Georgia on our website: www.ResilientNWGA.org
