flushed, how tiny bugs can serve as indicators of water quality, the importance of wetlands, and basic water science. In past years, about 1,200 – 1,300 fourth grade students have attended the festival from the seven Metropolitan counties to celebrate our most precious resource: water.

**Tips Outdoors** youth will learn about the positive benefits that spending time together fishing and being outdoors with their family and friends will have in their lives and the lives of their family and friends...and how important conservation of our lakes, rivers and natural water resources are for their lives and for future generations.

**September 26**
