Our Custom Services

CUSTOM HARDWARE

Clarcorp is a direct importer and has the capability to have custom hardware manufactured to your specifications. We have worked with our existing customers on hardware engineering solutions based upon our 100+ cumulative years of experience. If you are having difficulty finding the hardware you require, Clarcorp can assist in the design process to meet your needs. We will then take the design and research to source and procure final product for your application. All Clarcorp product is submitted to our rigorous testing and quality assurance program, so that your custom piece of hardware is exactly what you want and need.

KITTING & SPECIALTY PACKAGING

Our utilization of high-speed automated equipment, combined with our multiple layers of quality assurance at various stages of assembly, allow us to deliver error proof product. There are no minimums or maximums. We fulfill short runs, and we fill orders of several thousand fastener kits and other specialty orders per week. Custom labeling and printing of instructions, in black and white or full color, is available. Clarcorp can also kit customer-supplied parts combined with various hardware that we supply. We use environmentally friendly materials that are chosen for your specific application. Our Specialty Kitting and Packaging service will save you time and money. We ensure proper inventory levels, correct part selection and assembly, and can provide same-day delivery or scheduled releases.

CASTINGS & STAMPINGS

Metal stampings and metal castings are often used in the manufacturing process, which creates a compatibility challenge with fasteners. To optimize your manufacturing process, Clarcorp is a direct importer and has the knowledge and resources to source and procure the stampings and castings that work with the fasteners you specify. All stampings and castings go through our rigorous testing and quality assurance process to ensure that you are getting not only the product you need, but the product you want.

VENDOR MANAGED INVENTORY (VMI)

Clarcorp Industrial Sales offers custom-designed Vendor Managed Inventory (VMI) programs for your fastener and consumable needs. We have the flexibility to provide VMI services to save time and money while you keep complete control over the program. Our program features include:

- We are a direct importer of hardware, metal stampings and metal castings, which translates into a reduced cost for you.
- We supply bar-coded Inventory which provides data analytics to accurately forecast and provide you with Just In Time (JIT) inventory, aligning with your usage patterns.
- Our VMI program results in vendor consolidation to increase your efficiency and reduce purchase orders by leveraging Clarcorp for all your fasteners and consumables.
- We provide custom bin and container setup, labeling and organizing at one or multiple locations for consistent, organized inventory management throughout your organization.

Inventory Vending Machines

We offer inventory vending machines to help reduce inventory costs by up to 25 - 30% by automatically dispensing products to your teams as they are needed.

We can provide coil vending machines (similar to candy bar machines), locker machines or combination machines to meet your needs and security specifications.

Your Full-service Distributor of Hardware & Supplies

Clarcorp Industrial Sales is a hardware supplier to manufacturing, industrial, construction and fleet organizations.
