

# AI Evaluation Bridge – Evaluation Rubric Reference

## Purpose

A rubric breaks the evaluation process into specific criteria that can be scored consistently.

## Example Criteria

- Factual accuracy
- Logical reasoning
- Completeness of response
- Adherence to instructions

## Example Scoring System

- 0 — Incorrect or missing
- 1 — Partially correct
- 2 — Correct and complete

## Why Rubrics Matter

Rubrics allow multiple evaluators to judge responses consistently and fairly.
