Project Overview

TDP Group was appointed to reconfigure an existing area at Denes High School, Lowestoft, to create new meeting rooms within a live school environment. The works involved stripping the area, installing new partitions, upgrading electrical and fire detection services, and completing all finishes ready for use.

Project Highlights

- Two-week delivery programme
- Works undertaken within a live school
- New metal stud partition system
- Acoustic insulation to meeting room walls
- SoundBloc plasterboard installation
- New FD30 fire doors and door linings
- Electrical reconfiguration
- Fire detection reconfiguration
- New carpet tiles and full decoration

The Challenge

The key challenge was delivering the internal reconfiguration within an operational school while maintaining safe separation from pupils and staff and minimising disruption. The short two-week programme required close coordination of multiple trades to ensure works were completed on time and to a high standard.

Project Details

	Client:	Denes High School
	Location:	Lowestoft, Suffolk
	Contract Value:	£17,000
	Programme:	2 weeks
	Sector:	Education
	Environment:	Live school environment

Scope Included

- Strip-out and preparation of the existing space
- Construction of metal stud partitions
- Rockwool acoustic insulation to all partition walls
- SoundBloc plasterboard installed and finished
- New paint-grade door linings and FD30 fire doors
- Electrical alterations and reconfiguration
- Fire detection system alterations
- New carpet tile installation
- Full decoration to the refurbished area
- Final snagging and handover

Outcome

TDP Group successfully transformed the area into a suite of new meeting rooms within the agreed two-week programme. The completed scheme provides Denes High School with modern, acoustically improved meeting spaces, incorporating upgraded fire protection, electrical services, new flooring and decoration – all delivered within a live education environment.
