

PROJECT CASE STUDY

External Panel Refurbishment

Broadlands School, Wroxham, Norfolk

Before

After

Before

After

Project Overview

TDP Group was appointed to refurbish the external panels and doors at Broadlands School, Wroxham, Norfolk, improving the appearance and durability of the building without the cost of full replacement.

Project Highlights

- Refurbishment of existing external panels and doors
- Removal of rotten sections and repairs to existing timberwork
- Resin fill where required
- Replacement panels with marine plywood
- All surfaces prepared, primed, undercoated and finished in gloss to the customer's chosen colours

The Challenge

The key challenge was the small budget. The client did not want to replace the existing panels and doors with new, but to refurbish and repair the existing elements in order to achieve a minimum 5 year life.

Project Details

Client: Broadlands School
Location: Wroxham, Norfolk
Contract Value: £5,000
Programme: 7 days
Sector: Education

Scope Included

- Careful removal of rotten sections
- Resin fill to existing timberwork where required
- Replacement of damaged panels with marine plywood
- Preparation, priming, undercoating and gloss finishing
- Decoration to match the customer's colour scheme
- Refurbishment of existing doors
- Minimal disruption to the school

Outcome

The works were completed within 7 days and £5,000, delivering a visibly improved and refreshed exterior. By repairing and refurbishing rather than replacing, we helped the school achieve a cost-effective solution with an expected 5 year life, providing a smart, durable finish in the school's colours.
