Elevation Strategy

FRONT ELEVATION (PROPOSED)

Materials & Finishes

Project Highlights

- Live-school delivery with safeguarding controls
- Construction fencing and controlled work zones
- Low-disruption working and careful noise management
- Delivered on time despite wet October conditions
- Enhanced arrival experience for pupils, parents and visitors

Scope Included

- British Larch cladding to manufacturer guidelines
- Cream K-Rend to selected elevations
- Spraying existing canopy structures in satin black
- New polycarbonate canopy roof panels
- External aesthetic upgrade to the school approach
