Project Overview

TDP Group was appointed to carry out a complete refurbishment of an existing stairwell at Ormiston Academy, Ipswich. The works involved removing the existing handrails, flooring and ceiling grid, before installing a new compliant handrail system and upgrading the finishes, lighting and ceiling system throughout the stairwell.

Project Highlights

- One-week delivery programme
- Full stairwell refurbishment
- Existing handrails removed
- Existing flooring removed
- Existing ceiling grid removed
- New bespoke powder-coated handrail system
- Handrails designed to meet current Building Regulations
- New Altro flooring
- New LED flat-panel lighting
- New suspended ceiling grid
- Full decoration throughout

The Challenge

The project had to be completed within a tight one-week programme while coordinating several trades within a confined stairwell environment. A key requirement was ensuring that the new handrail system was properly designed and installed to satisfy current Building Regulations, while also improving the overall appearance and durability of the space.

Project Details

	Client:	Ormiston Academy
	Location:	Ipswich
	Contract Value:	£18,000
	Programme:	1 week
	Sector:	Education
	Environment:	Live school environment

Scope Included

- Strip-out of existing handrails, flooring and ceiling grid
- Design and installation of new powder-coated handrails
- Compliance-focused handrail detailing
- New Altro safety flooring
- New LED flat-panel light fittings
- New suspended ceiling grid
- Full preparation and decoration to stairwell walls and finishes
- Final snagging and handover

Outcome

TDP Group delivered a complete stairwell transformation within the agreed one-week programme. The finished scheme provided Ormiston Academy with a safer, brighter and more modern circulation space, combining compliant powder-coated handrails, new Altro flooring, upgraded LED lighting, a new ceiling grid and full decoration.
