

PROJECT CASE STUDY

Washroom Installation

Cliff Park Primary School, Gorleston

Project Overview

TDP Group was appointed to deliver a full washroom installation at Cliff Park Primary School, Gorleston. The works were completed over a two-week programme and included new Altro flooring, new Dunhams cubicles, new sanitary ware, a full extraction system, new lighting and a new ceiling grid, creating a modern, hygienic and durable facility for the school.

Project Details

Client:	Cliff Park Primary School
Location:	Gorleston
Contract Value:	£24,000
Programme:	2 weeks
Sector:	Education

Project Highlights

- Two-week delivery programme
- Full washroom installation
- New Altro flooring
- New Dunhams cubicles
- New sanitary ware
- Full extraction system installed
- New lighting throughout
- New suspended ceiling grid

Scope Included

- Removal and preparation of existing washroom area
- Installation of new Altro flooring
- Supply and installation of new Dunhams cubicles
- Installation of new sanitary ware
- Full extraction system
- New lighting installation
- New suspended ceiling grid
- Final finishing and handover

The Challenge

The project required a full washroom refurbishment within a short two-week programme while coordinating several work elements within a school setting. Careful sequencing was needed to complete the flooring, cubicles, sanitary ware, extraction, lighting and ceiling works efficiently while achieving a clean, high-quality finish.

Outcome

TDP Group delivered a bright, modern and hygienic washroom facility on programme. The completed installation provides Cliff Park Primary School with a refreshed environment featuring new cubicles, sanitary ware, Altro flooring, extraction, lighting and ceiling systems that improve both appearance and long-term usability.
