

**B**orn and raised by his late father Gil Tunque who sang and played drums in an 80s cover band. Jeff Tunque (Tune-K) started playing drums and piano at a young age and was influenced by Motown, Funk, Disco, 80s, R&B and Hip Hop. He is also a composer who produces music for independent artists. These influences have carried over to his passion for DJing which enables him to perform, mix, and provide great music towards the crowd in front of him in an open format style that will rock any occasion.
