- 1 ACH Draft - exact amount Open Roads will deduct from your bank account
- 2 Fee for Reimbursement - 10% of the savings collected by Open Roads
- 3 RV Fuel - retail price
- 4 RV Transaction Fee - transaction fee from the merchant
- 5 Reimbursement for Discount - total amount saved before fees deducted

To Calculate How Much You Paid Per Gallon:

$$\text{RV Fuel} - \text{Reimbursement for Discount} / \text{gallons (found on app)} = \text{Rate Charged}$$

Howdy!

We are Ryan and Lauren Miller, a husband and wife team from Texas trying to balance our wanderlust and roots. We built a life we loved but were inspired to travel and experience more. We purchased our first RV in 2022 and have been documenting our journey. We hope to inspire and educate you in your personal journey, too. We immediately recognized how amazing and unique the RV community was, and we are excited to be a part of that positive environment and help it develop. We look forward to sharing our adventures with you!

To say the initial learning curve was steep might be the understatement of the decade! After all, neither of us had any experience in RV ownership or operation. There are several items and programs that made our journey safer, more enjoyable, or both. We immediately found value in the Open Roads program. This program was free to join and saves us money on fuel, which as you know, can be a major expense in this lifestyle. Talk about instant gratification! What we didn't expect was the value of being able to use the truck lanes at fuel stations. This little change made a huge impact. The lanes are wider and designed to accommodate large rigs like our Alliance Valor 44V14 Toy Hauler, so we felt less stress trying to maneuver in that space. We can get diesel fuel and DEF on the pump, and the pumps flow quicker. That means we spend less time waiting or maneuvering, and more time on the road! This is now a staple for us in our travels.

Thanks, Open Roads!
