BUILD YOUR OWN COURT

Court Size

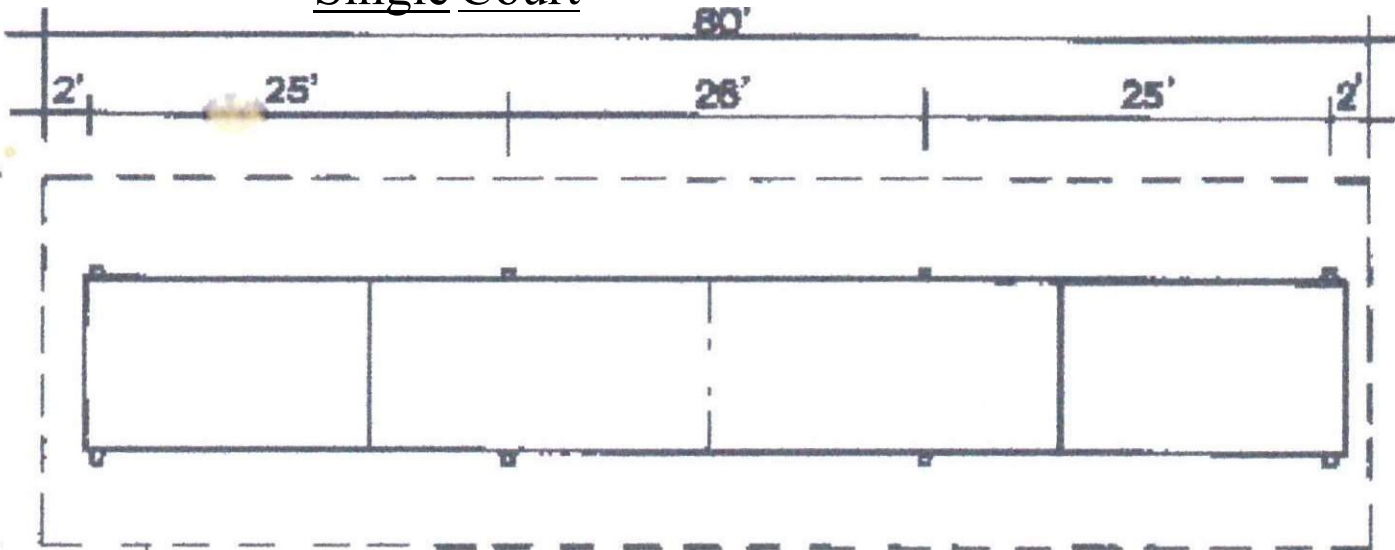

Game of bocce is usually played on a hard, level surface of packed dirt or, ideally, a clay/sand mixture. While a family game can be enjoyed on any available level surface such as a lawn, sandy beach, picnic area or even city pavement (not a travelled road!), the area should be a specially constructed court.

B.A. suggests the following official playing court dimensions and requirements:

PLANS: 1" = 20'

PLANS: 1" = 20'

Single Court FLOOR PLANS 20

*- Official court size 76 feet long by 10 feet wide

FLOOR PLANS: 1" = 20'
