The proceeds of this tournament will be placed in a new building fund that will assist us with the construction of a new firehouse.

Why do we need a new firehouse? The current firehouse was built in the 1950's and was designed to fit the fire trucks they had then, overtime fire trucks have gotten much bigger as the fire service has evolved and our bays are no longer big enough for the apparatus that is on the market today.

Come and support the Herndon Fire Company at our 1st annual softball tournament and enjoy a day of fun and food!!
