(COMPLETE ALL LISTED FIELDS ON FORM FOR CAPCE CREDIT)

Course Number AM-25-11635-04

LEARN TO GIVE SOMEONE A SECOND CHANCE ON THEIR WORST DAY

The course utilizes the 4th ed. NAEMT AMLS textbook and covers:

- Pharmacology
 - Respiratory disorders
 - Cardiovascular disorders
 - Shock
 - Sepsis
 - Neurologic disorders
 - Mental health emergencies
 - Endocrine/Metabolic disorders
 - Environmental emergencies
 - Infectious disease
 - Abdominal disorders
 - Women's health emergencies
 - Toxicologic emergencies
- ✓ AMLS is the Gold standard of education for EM assessment & treatment
 - ✓ Endorsed by the National Association of EMS Physicians
 - ✓ Recognize & manage critical medical patients through realistic case studies
 - ✓ Apply critical thinking for risk stratification during interactive group discussions

The AMLS course is led by a dedicated team of experienced educators and clinicians who bring a wealth of real-world knowledge to the classroom. Our core faculty and guest instructors have a strong background in emergency medicine and a passion for advancing prehospital care. Together, they guide students through dynamic, case-based scenarios and critical thinking exercises using the AMLS Assessment Pathway. We are proud to present a skilled team supporting your growth as a skilled prehospital clinician.
