

ASHWORTH

COLLECTION 2025

ELEVATE YOUR GAME

ASHWORTH

2025

Ashworth is the original authentic golf lifestyle brand.

Founded by John Ashworth and Gerald Montiel in 1987, Ashworth Golf clothing was born in California, USA and changed the way people dressed for golf.

John Ashworth's love of walking golf courses and carrying his clubs inspired Ashworth's iconic Golfman logo and started a lifestyle movement.

"It's when you become one with the game and with nature – when you walk the fairways and the greens with a bag over your shoulder. It's the opportunity to work on your mind and spirit... along with your game.
It's the zen of the golf."

EDDIE FADEL

PRESIDENT ASHWORTH GOLF USA

GOLF TODAY

Today, Ashworth is built on the same principles of classic style, craftsmanship and heritage as it was when Fred Couples, Ernie Els and Justin Rose wore its clothes on tour. It's the ultimate brand made by golfers for golfers.

Its collections are a unique blend of natural fabrics and performance attributes that stay true to its original style ethos.

Wearing the Golfman logo, the world recognizes your passion for golf.

CRESTING SERVICE

Ashworth clothing is available for club and corporate cresting. From digital origination, through to final embroidery, our service enables you to transform Ashworth garments into unique personalised pieces of golf apparel.

Our expert embroiderers can offer full colour, tone-on-tone or tonal logos and position cresting and branding in a variety of positions including chest, sleeves and the nape of shirts and mid-layers.

Ashworth is now offering embroidery printing services alongside traditional machine stitch embroidery. Using Wilcom ES (embroidery studio) design software, our embroiderers can now print a 3D effect club or corporate crest directly onto an outer fabric.

This has clear benefits for cresting waterproofs and water-repellent jackets because it allows us to crest garments without having to reseal areas that would have been stitched using traditional methods. Embroidery printing can be used on upper and lower sleeves, panels and chest placements, as well as shorts and trousers.
