

# Orange County Migraine & Wellness Center

## NEW PATIENT POLICY

Our office policy for new patients requires an initial consultation with Dr. Molly Rossknecht, a neurologist who completed a Fellowship in Headache and has been with our practice for over 4 years. She is known for her expertise as a Neurologist/Headache Specialist and her exceptional bedside manner.

The OC Migraine & Wellness Center, previously directed by Dr. Hutchinson, continues its commitment to providing excellent patient care. Dr. Hutchinson, the previous Founder & Director, established a legacy of excellence since the center's founding in 2007. Although Dr. Hutchinson is no longer with us, her recommended approach remains integral to our practice.

We encourage all new patients to schedule their initial consultation with Dr. Molly Rossknecht. Appointments are typically available within 2-3 weeks. Dr. Rossknecht is adept at addressing hormonal issues that may affect migraines and will provide a comprehensive evaluation during your visit. If necessary, she will coordinate with our team of specialists for any complex issues that require further expertise.

If you have any questions about our new patient policy, please feel free to email us at [info@ocmigraine.org](mailto:info@ocmigraine.org) or call us at 949-861-8717. We are here to assist you and look forward to contributing to your well-being.

Sincerely,

The Team at OC Migraine & Wellness Center
